Subject: Bull Hill Wind Farm State Review

Dear Connie,

I am in receipt of your e-mail about the proposed First Wind - Blue Sky East's 'Bull Hill Wind Project'. Thank you for contacting the Land Use Regulation Commission (LURC). At this time, we have only been informed by the developer that they intend to file a project application for review, one has not been received but is likely in the near future. Preliminary plans have been presented to the staff at a 'Pre-Application Meeting' held on 10/14/2010 at our office in Augusta. When and whether an application is submitted is the developers prerogative. Until a formal application for the project has been filed it is not on the Commission's agenda. Even though as a resident of Eastbrook and not a voter on the Project while its wholly in T-16 Township, your comments are of interest to the LURC Commissioners. I appreciate your input and saved your e-mail for them to read.

If you would like I can keep you on the public notification e-mail list as an 'Interested Party'. You can receive two e-mails from me that will be timely for expressing your viewpoint again if you would like. One, is a notification that the application has been filed with LURC staff for review. And the other will let interested parties know that the application has been found complete for processing. At these times your comments become part of the official record to be read by the Commissioners while they deliberate and make their decisions. Your comments matter and are taken seriously, so I want to make sure you submit them at the proper time in the application process.

You will find the State of Maine - LURC website has a wealth of information on the Laws and Rules of LURC. On it you can follow the meeting schedule and agendas, read the full application and minutes of Commission meetings, and listen to meetings live or recorded. The project application will also be filed at your Hancock County Office around the filing date as well. The LURC website address and my contacts are listed below.

Please feel free to contact me with any questions, concerns, or help understanding the Commissions procedures. I look forward to hearing from you during the application process and making sure your submitted viewpoint reaches the Commissioners.

Sincerely;

Don Murphy
