Good evening Mr. Murphy,
I was sputtering out loud about how upset I was with the wind turbines slated for my neck of the woods and I guess I was loud enough to be overheard! We were told by an Eastbrook selectmen that the turbines were a "done deal" and because we were not legal residents in Eastbrook (we have had a camp on Molasses Pond for over 20 years but our legal residence is Bar Harbor)) we have no say. I was told tonight that it isn't true and I need to speak up to you and others involved in the final decisions. I would like to know what, if anything I can do to voice opposition. If you could point me in the right direction I would be most appreciative. I would definitely like to request my name and email address be added to the "interested party" mailing list.
Thank you,
Trish Nolan
