Subject: Eastbrook wind farms
Date: Tuesday, November 30, 2010 8:50:42 PM

Mr Murphy, I was born and raised in Eastbrook, from my Moms we could see heifer and bull hill very clearly. When the big fire was up there in the 40's us kids lay on cardboard on the lawn and watched it. My sister and I went to Calif. Right after the big earthquake (maybe 89??) Anyway the family that we went to see took us miles and miles each day to see Calif. I will never forget the windmills, I was and to this day am in awe of them. How anyone could not want this for energy I do not understand. I do not for once believe that they make that much noise but of course I love a good windstorm and the thunder. May Eastbrook get their windmills, wish I could vote. Good Luck
