To: Ethics Commission

In regards to the Late Filing of Independent Expenditure Reports/Republican State Leadership Committee on the Agenda (#2), we are very concerned about the effect of huge amounts of money, affecting Clean Elections. For the taxpayers of Maine and all candidates who use Clean Elections money, we are requesting full audits on all 5 Republican candidates, who benefited from these negative ads, to look at the whole picture. This is a reasonable request, due to the extremely large amount of money, that was spent by the Republican Party. It gives the appearance, that you can buy an election, which goes directly against the intent of Clean Elections
