David Handley will be discussing what was seen in the state last year on the (SWD) spotted wing drosophila within our crops ,how to trap, and what can be done to combat this issue.

Chelsea Smith from BASF will be discussing Pristine fungicide that controls the broadest range of diseases of any fungicides registered for use on specialty crops. She will explain how the fungicide works and review the application instructions. Chelsea will also be reviewing the BASF product Poast and how to get the most out of your weed control program.

Bob Gestring from NovaSource will be discussing Sinbar WDG formulation. They will cover the following:

- **University of Maine Results**
- **Best Management Practices & Worker Protection Standard for Sinbar WDG**
- **Weed Efficacy & Mixing**

Jonathan Stevens from Syngenta will cover labeling, best-use guidelines, pests controlled, PPE, REI, rates, and timing for each of the following products:

- **Callisto – Bravo – Tilt**

Phil Luers will be discussing products that he has to use on the spotted wing drosophila, rates, PPE, REI, and timing.

Tom Carter from Helena will again this year discuss the use of adjuvants to enhance the efficacy of certain pesticides. By relating to pesticide labels which refer to the use of surfactants, or enhancements like a nitrogen products, and velossa.

MPG will follow up with an open forum on whatever topics the growers would like to discuss. Storer DeMerchant and Steve London would like to discuss what is new or changed in "Preparing for 2013 Season."

WE WILL BE REQUESTING THAT THE BOARD OF PESTICIDES CONTROL AWARD POINTS FOR ATTENDANCE. THANK YOU.

We look forward to seeing you!
