APRN Audit Notice with On-line Renewal

Effective **February 1, 2016**, an advanced practice registered nurse selected for an audit will receive the audit selection message when they renew on-line. This message will display when they reach the question on continuing education. The APRN will have the option of uploading the documents as he/she renews or submitting it to the office by FAX or e-mail. If the information is not uploaded at the time of renewal, a secondary status of pending review will be added to the APRN license and a deadline of two weeks is given to submit the required documentation.
