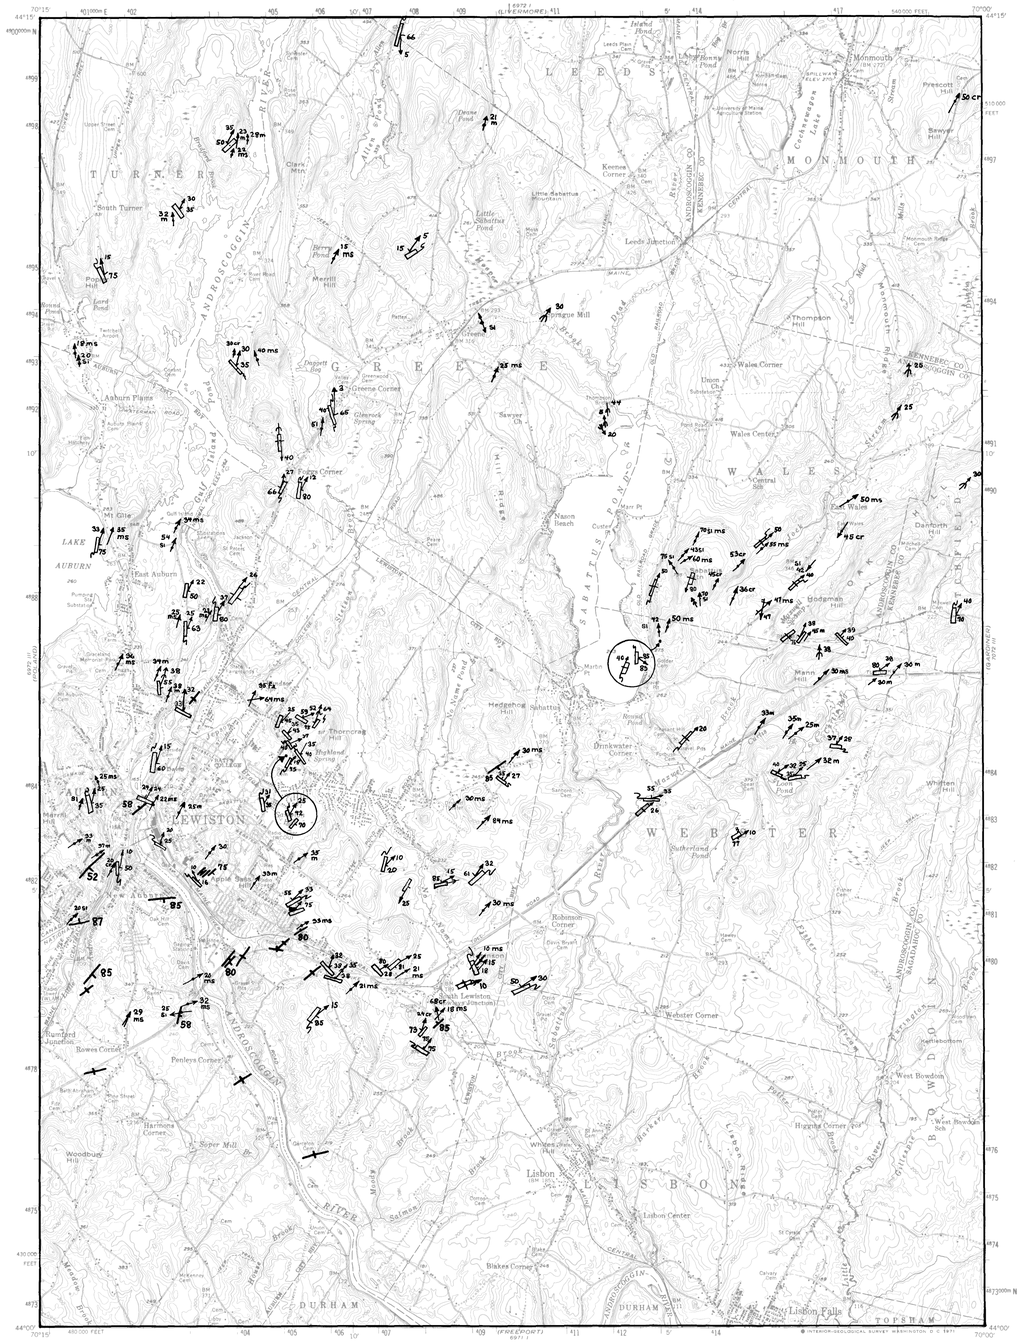
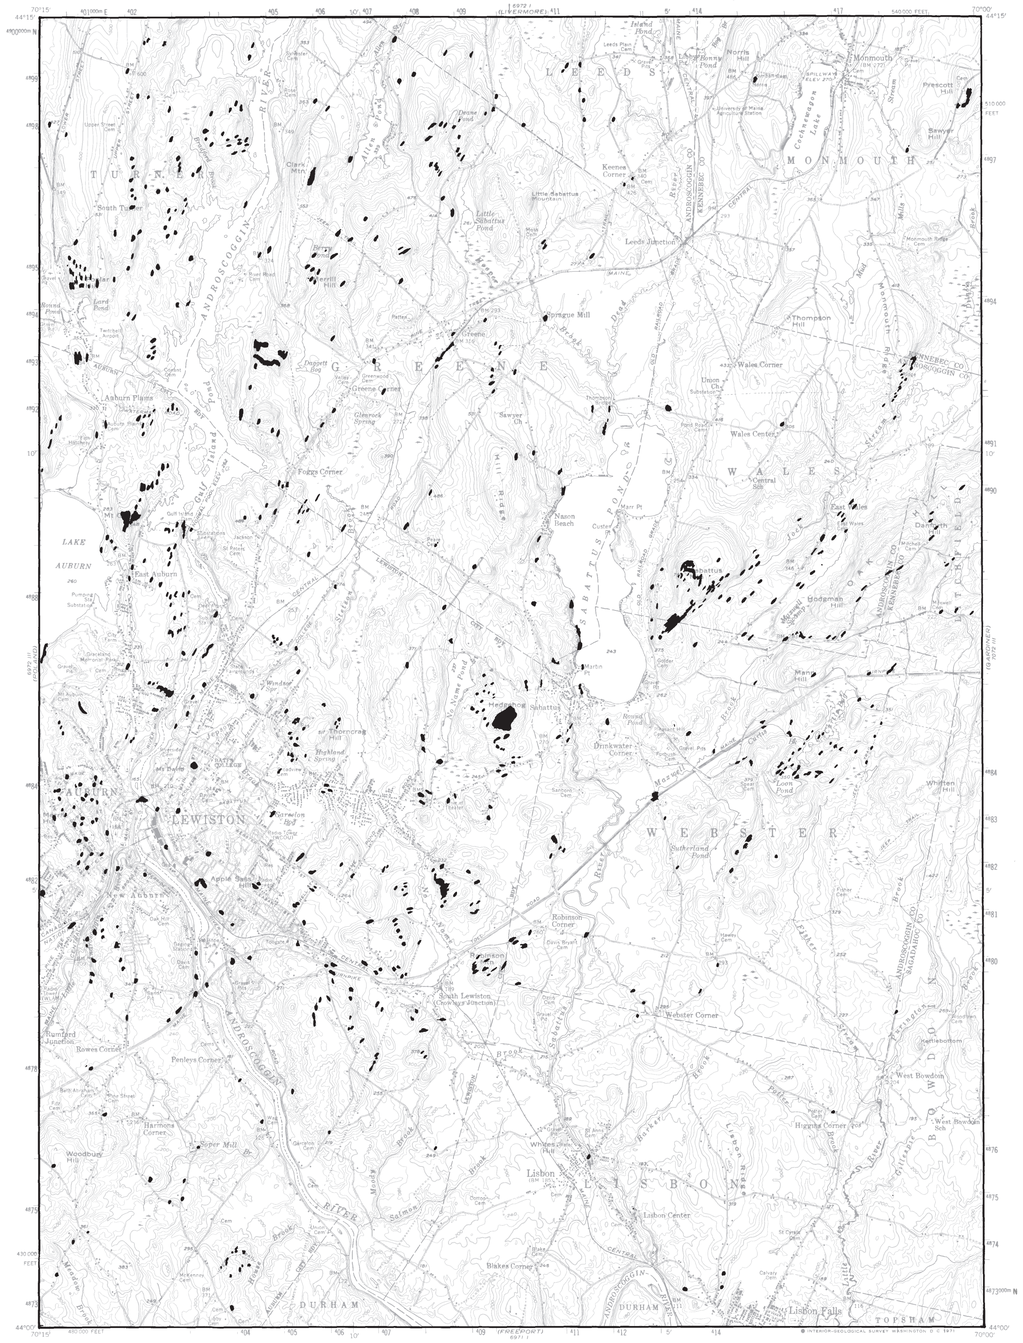
ORIENTATIONS OF PARASITIC FOLDS, LINEATIONS, AND BASALTIC DIKES



OUTCROP LOCATIONS



Strike and dip of parasitic folds and plunge of axes

Plunge and type of lineation
- m: mullions
- ms: mineral streaks and elongate grain alignment
- cr: schistosity crenulation
- fa: small-scale fold axes

Horizontal lineation

Strike and dip of basalt dikes

Strike of vertical basalt dikes

Dextral parasitic folds

Sinistral parasitic folds

Plunge of isolated parasitic anticlines

Plunge of isolated parasitic synclines
