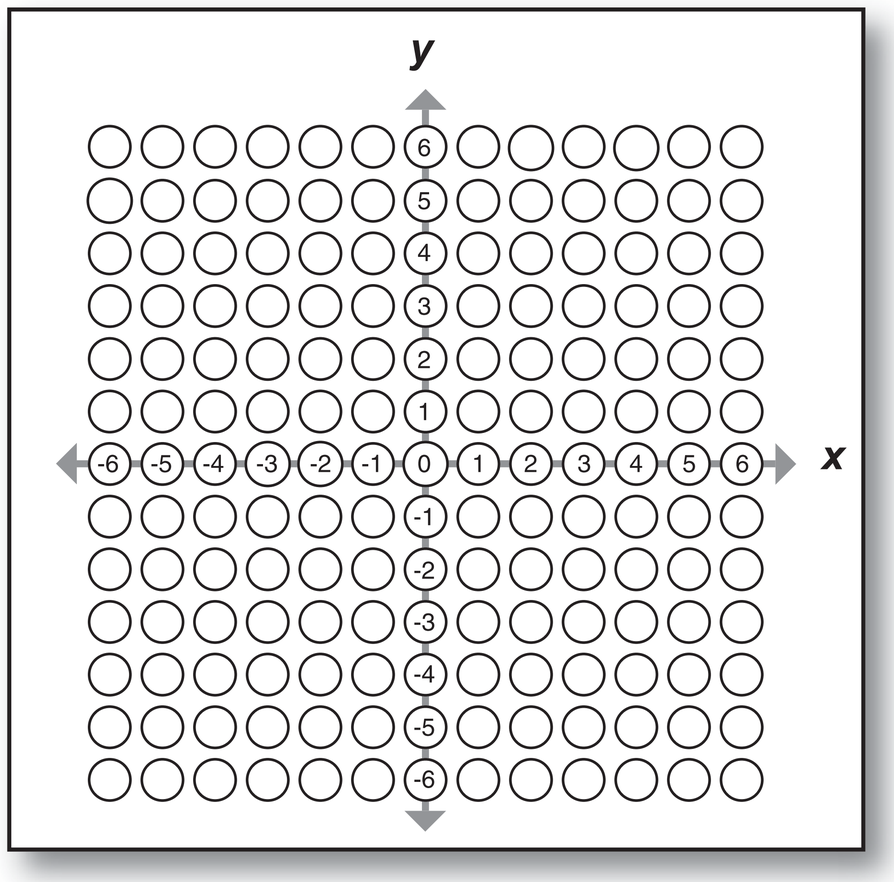
Mathematics Test
Coordinate Plane Grid

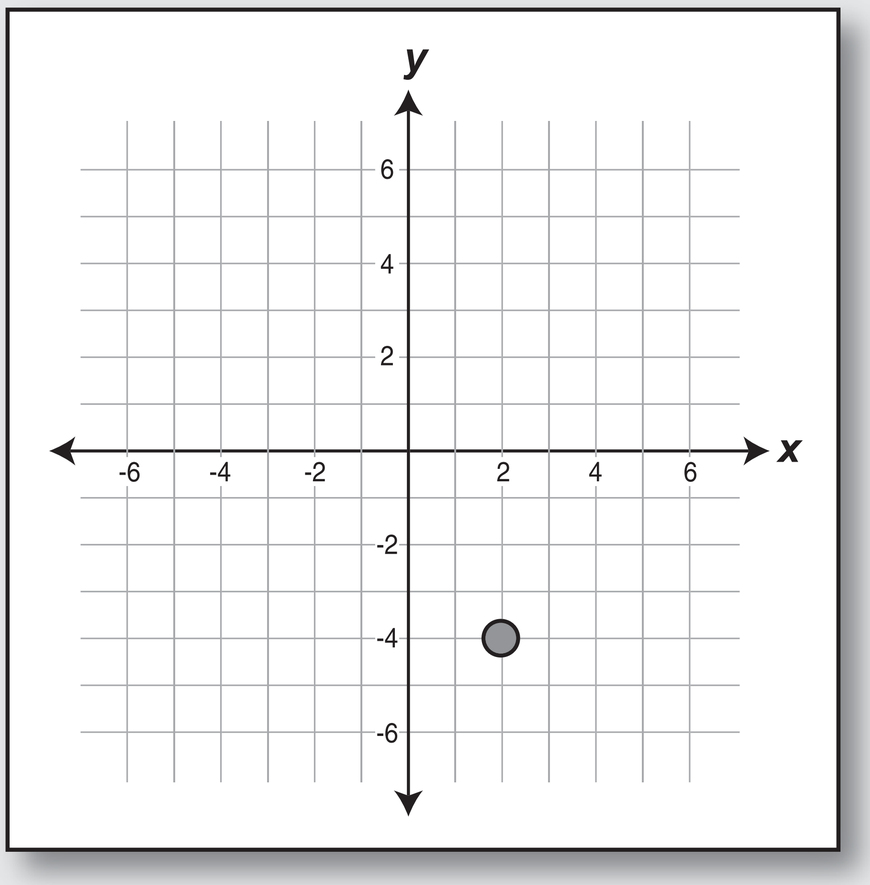
Points to Remember:

- To record an answer on the coordinate plane grid, you must have an "*x*" value and a "*y*" value.
- No answer for a coordinate plane question will have a value that is a fraction or a decimal.
- Mark only the ***one*** circle that represents your answer.



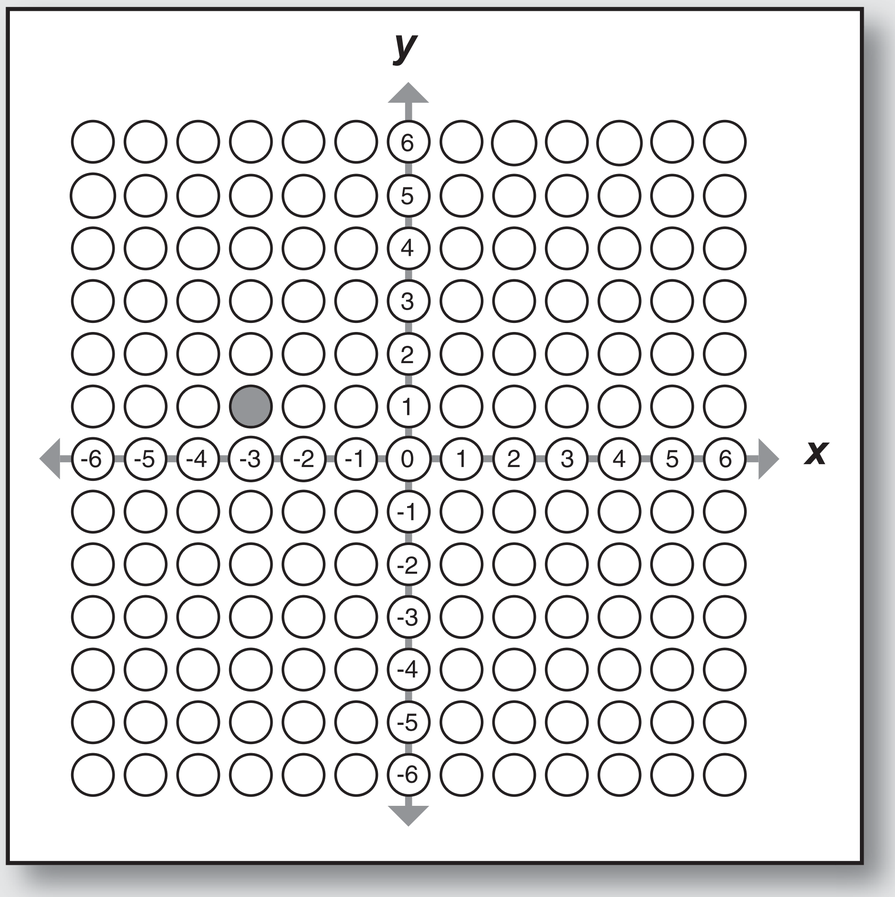
EXAMPLE

The coordinates of point A, shown on the grid below, are (2,-4).



The coordinates of point B, not shown on the grid, are (-3,1). What is the location of point B?

DO NOT MARK YOUR ANSWER ON THE GRID ABOVE.

Mark your answer on the coordinate plane grid on your answer sheet.


CORRECT RESPONSE
