Where do I start?

Take some time to familiarize yourself with the website and application. **Go to:**
https://www.maine.gov/doe/learning/content/world-language/biliteracy

Guiding Questions	I still have questions about…
ENGLISH PROFICIENCY *Click on Criteria* In English, which evidence of proficiency would be most relevant for your community? *Click on Application > Paper Application > Look at Section 2* Who in your community would you need to talk to about the necessary information or evidence to show evidence of English Proficiency? Is this a conversation a student could have or a request a student could make?

Guiding Questions	I still have questions about…
ADDITIONAL LANGUAGE PROFICIENCY *1) Click on Criteria* In additional language, which tests/pathways would be most relevant to your community? What is the minimum score for each test? List all possibilities in the table below. *Hint: There are links to the general tests so that you can see what languages they test.* 2) *Click on FAQ > scroll down to "How much do tests cost?* For the tests listed write down the cost for each test. *3) In FAQ section, scroll down to "Are their sample tests available…?"* For the tests listed below write down what supports are available to familiarize students with tests. *4) Additional questions to consider ensuring you are selecting the right test for your community.* • How long will it take to get results back? When can students take test? • In thinking of your community, do you think any students will score in the advanced level and may be entering the military or workforce after school? If so, consider having them take the AACTFL OPI and WPT test. They are more expensive but will provide them a stronger credential for the workforce and military. • In thinking of your community, do you think any students might be able to speak and understand language, but not able to read and write? If so, reach out to the World Language Specialist to discuss an exemption.	

Test	Minimum Score	Cost	Supports	Notes
