RREV

Rethinking Remote Education Ventures

INNOVATIVE EDUCATOR

Maine Department of Education

The Journey to Innovation

1 Embrace Innovation

RREV is intended to inspire systemic change in school systems. Systems Change is defined as: Change that significantly disrupts the programmatic status quo for a cohort of students. This disruptive change has potential to influence policy, change mindsets and build capacity within the educational structure for the sustainable future.

2 Create a Team

- Pick two "co-captains/leaders" (one MUST be an administrator)
- Develop a system-based team to support the "co-captains"
- Think about stakeholder groups to be involved in the pilot implementation

3 Engage in Learning

- IMPD, Innovative Mindset Pilot Design Course.
- Co-captains MUST take an IMPD course
- Pilots developed in the IMPD course will be eligible for RREV funding.
- IMPD courses are open to all Maine educators. Shorter Innovative Principles modules, designed to support the Pilot team, are open to all team members.

4 Produce Pilot Model

- Co-Captains WILL leave IMPD course with a completed "Pilot Model"
- Completed pilots will be stored on the RREV web-based portal (EnGiNE) for future iteration and development.

5 Apply for Grant Funding

- Select your own or an alternative "Pilot Model" from EnGiNE to implement with your team.
- Update any "Pilot Template" components
- Submit for possible funding consideration

6 Implement Pilot

Implement pilot with a group of students: conduct research and document results.

7 Share Results

Share process, results, reflections, and suggested modifications to the EnGiNE platform

The Maine Department of Education's Rethinking Remote Education Ventures (RREV) project is 100% funded by the U.S. Department of Education's Education Stabilization Fund awarded through the Rethink K-12 Education Models (REM) grant. Maine was awarded $ 16,958,613.
