TIM POND

Tim Pond Twp., Franklin County
U.S.G.S. Black Mountain, Maine (7½') and
U.S.G.S. Tim Mountain, Maine (7½')

Fishes

Brook trout

Minnows

Physical Characteristics

Area - 320 acres

Maximum depth - 46 feet

Principal fishery: Brook trout

Temperatures:

Surface - 61°F

45 feet - 50°F

Tim Pond is located north of East Kennebago Mountain. Two small inlets enter the west side of the pond and its outlet, Tim Brook, exits the north side flowing east in the North Branch of the Dead River. The pond's shoreline is mostly undeveloped.

Water quality in Tim Pond is good for coldwater gamefish. The pond's tributaries have ample spawning and nursery habitat available for the native brook trout population to provide a fishery. Trout growth is good despite heavy interspecific competition. The pond is not stocked.

Tim Pond is accessible via private gated roads off the Tim Pond Road. The pond is open to fly fishing only in the summer and closed to fishing during the winter.

Surveyed - September, 1951

Resurveyed - 1995
