Temperatures

Maximum depth - 42 feet

Surface - 66° F.

40 feet - 57° F.

Thisstell Pond was reclaimed in 1962 to reduce competing species and to permit intensive management for brook trout. Conditions for growth and survival of trout should be greatly improved by reclamation. The future fishery will be supported by annual brook trout stocking.

Special regulations now in effect on Thisstell Pond are:

1. Five-trout daily limit;
2. Use or possession of live fish as bait prohibited; and
3. Closed to ice fishing.

These regulations are designed to distribute the catch and to prevent reintroduction of undesirable species.
