None

### Physical Characteristics

Area - 5 acres

Temperatures

Surface - 68°F

Maximum depth - 17 feet

16 feet - 50°F

Principal fisheries: None

Sunday Pond is located on the north side of Moxie Mountain. A number of small inlets enter the east end of the pond. Its outlet flows steeply south from the east end into Pleasant Pond. The pond's shoreline is undeveloped.

Although suitable water quality and spawning substrate is available, no fish were taken in the initial survey. Steep impasses on the outlet prevent fish from moving upstream to the pond.

Sunday Pond is accessible via a steep climb from roads off the Pleasant Pond Road. The pond is open to fishing under general law in the summer and closed to ice fishing.

Surveyed - August, 2002
