Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the County of York, Maine, as of and for the twelve months ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the County of York, Maine as of June 30, 2014, and the respective changes in financial position and cash flows, where applicable, thereof for the twelve months then ended, in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 11 and budgetary comparison information on page 41 through 42 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County of York, Maine's basic financial statements. The combining and individual non-major fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements are the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**REQUIRED SUPPLEMENTARY INFORMATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2014**

(UNAUDITED)

The following management's discussion and analysis of the County of York, Maine's financial performance provides an overview of the County's financial activities for the twelve months ended June 30, 2014. The County Commissioners voted to transition from a January to December fiscal year to a July to June fiscal year beginning with a six month transition budget. This six month transition budget year was concluded on June 30, 2013 and was designated FY13. Of the total \$8,024,784 county taxes assessed for the six month transition budget, a balance of \$4,395,010 remained as taxes receivable for the municipalities who chose to pay over five years.

The twelve month budget, FY14, concluded on June 30, 2014 is the first July to June fiscal year for the County of York, concluding the transition. Beginning this year, there is one set of financial statements for the County's General Fund, Jail Fund, grant and special revenue funds. Please read this discussion and analysis in conjunction with the County's financial statements.

Financial Statement Overview

The County of York's basic financial statements include the following components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes required supplementary information which consists of the general fund budgetary comparison schedule, and other supplementary information which includes combining and other schedules.

Basic Financial Statements

The basic financial statements include financial information in two differing views: the government-wide financial statements and the fund financial statements. These basic financial statements also include the notes to financial statements that explain in more detail certain information in the financial statements and also provide the user with the accounting policies used in the preparation of the financial statements.

Government-Wide Financial Statements

The government-wide financial statements provide a broad view of the County's operations in a manner that is similar to private businesses. These statements provide both short-term as well as long-term information in regards to the County's financial position. These financial statements are prepared using the accrual basis of accounting. This measurement focus takes into account all revenues and expenses associated with the fiscal year regardless of when cash is received or paid. The government-wide financial statements include the following two statements:

The Statement of Net Position – this statement presents *all* of the government's assets and liabilities with the difference being reported as net position.

The Statement of Activities – this statement presents information that shows how the government's net position changed during the period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

Both of the above mentioned financial statements have one column for the County's type of activity. The type of activity presented for the County of York is:

- *Governmental activities* – The activities in this section are mostly supported by taxes and intergovernmental revenues (federal and state grants). Most of the County's basic services are reported in governmental activities, which include general government services, jail, sheriff, courts, emergency management, probate, deeds, district attorney and other unclassified.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of York, like other local governments uses fund accounting to ensure and demonstrate compliance with financial related legal requirements. All of the funds of the County of York are categorized as one fund type: governmental funds.

Governmental funds: All of the basic services provided by the County are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported in governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balance of spendable resources available at the end of the fiscal year. Such information will be useful in evaluating the government's near-term financing requirements. This approach is known as the current financial resources measurement focus and the modified accrual basis of accounting. Under this approach revenues are recorded when cash is received or when susceptible to accrual. Expenditures are recorded when liabilities are incurred and due. These statements provide a detailed short-term view of the County's finances to assist in determining whether there will be adequate financial resources available to meet the current needs of the County.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These

reconciliations are presented on the page immediately following each governmental fund financial statement.

The County of York presents four columns in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances. The County's major governmental funds are the general fund, jail fund and deeds preservation fund. All other funds are shown as nonmajor and are combined in the "Other Governmental Funds" column on these statements.

The general fund and the jail fund are the only funds for which the County legally adopted a budget. Because this is a twelve month transition general fund budget, the jail's FY13 financial statements are presented in a separate report. The Budgetary Comparison Schedule-Budgetary Basis-Budget and Actual-General Fund provides a comparison of the original and final budget for the general fund and the actual expenditures for the current year.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and the Fund Financial Statements. The Notes to Financial Statements can be found following the Fiduciary Fund Statement of Net Position.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information, which includes a Budgetary Comparison Schedule – Budgetary Basis – Budget and Actual – General Fund.

Other Supplementary Information

Other supplementary information follows the required supplementary information. These combining and other schedules provide information in regards to nonmajor funds.

Government-Wide Financial Analysis

Our analysis below focuses on the net position, and changes in net position of the County's governmental activities. The County's total net position increased by \$424,180 from \$14,869,483 to \$15,293,663.

Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements - increased to a balance of \$3,704,653 at the end of this year.

Financial Analysis of the County's Fund Statements

Governmental funds: The financial reporting focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information may be useful in assessing the County's financial requirements. In particular, unassigned fund balance may serve as a useful measure of a government's financial position at the end of the year, and the net resources available for spending.

The general fund total fund balance increased by \$426,609 from the prior fiscal year. Fund balances for the jail fund decreased from the prior year by \$141,052 resulting in a deficit balance of \$10,469. The Deeds surcharge fund decreased by \$45,652 and other non-major fund balances increased by \$14,186 over the prior fiscal year.

Budgetary Highlights

There was no significant difference between the original and final budget for the general fund, with the exception of the use of assigned fund balances.

Actual revenues were over the general fund budget by \$562,522. This was predominantly the result of over-received Deeds revenues.

General fund actual expenditures were under budget by \$367,152 for the fiscal year. Under expended medical and dental insurance, capital outlay, and contingency were the primary reasons for the favourable variance. The overspent items are disclosed in the notes to financial statements.

Capital Asset and Debt Administration

Capital Assets

As of June 30, 2014, the net book value of capital assets recorded by the County decreased by \$1,104,705 from the prior fiscal year. This was due to depreciation expense less capital additions and net disposals. Refer to Note 4 of Notes to Financial Statements for additional information.

COUNTY OF YORK, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The County of York was incorporated under the laws of the State of Maine. The County provides the following services: general government services, sheriff, jail, telecommunications, deeds, probate, courts and other.

The County's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

The County's combined financial statements include all accounts and all operations of the County. We have determined that the County has no component units as described in GASB Statement No. 14 and amended by GASB Statement No. 39.

Government-Wide and Fund Financial Statements

The County's basic financial statements include both government-wide (reporting the County as a whole) and fund financial statements (reporting the County's major funds).

Both the government-wide and fund financial statements categorize primary activities as governmental. The County categorizes all activities as governmental.

In the government-wide Statement of Net Position, the governmental activities columns are (a) presented on a consolidated basis by column, and (b) are reported on a full accrual, economic resources basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The County's net position is reported in three parts - invested in capital assets, net of related debt; restricted net position; and unrestricted net position. The County first utilizes restricted resources to finance qualifying activities.

COUNTY OF YORK, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The government-wide Statement of Activities reports both the gross and net cost of each of the County's functions (general government services, courts, jail, sheriff, etc.). The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, miscellaneous revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. For the most part, the interfund activity has been eliminated from these government-wide financial statements.

The net costs (by function) are normally covered by general revenue (taxes, certain intergovernmental revenues and charges for services, etc.).

The County does not allocate indirect costs. All costs are charged directly to the corresponding department.

The government-wide focus is more on the sustainability of the County as an entity and the change in the County's net position resulting from the current year's activities.

Measurement Focus - Basic Financial Statements & Fund Financial Statements

The financial transactions of the County are reported in the individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the County:

1. Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the County:

- a. The General Fund is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.

COUNTY OF YORK, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- b. Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

2. Fiduciary Funds:

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support County programs. The reporting focus is on net position and changes in net position and is reported using accounting principles similar to proprietary funds. The County has no component units that are fiduciary in nature.

The County's fiduciary funds are presented in the fiduciary fund financial statements by type (agency). Since by definition these assets are being held for the benefit of a third-party (other local governments, private-parties, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide financial statements.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Non-major funds by category are summarized into a single column, GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenses of either the fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

1. Accrual

Governmental activities in the government-wide financial statements and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

COUNTY OF YORK, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

Budget

The annual budget is the financial plan for the operation of the County of York, Maine for the ensuing annual period. The budget process provides for a professional management approach to the establishment of priorities and implementation of work programs while providing an orderly means for control and evaluation of the financial posture of the government.

The County commissioners submit itemized financial estimates in the form of a budget to the budget committee no later than sixty days before the end of the County's fiscal year. The budget committee reviews the itemized estimated budget prepared by the County commissioners, together with any supplementary material prepared by the head of each County department or provided by an independent board or institution or another governmental agency.

The budget committee prepares a proposed budget and may increase, decrease or alter the estimated budget based on certain guidelines or restrictions. Statutes require the budget committee to hold a public hearing in the County on the proposed budget before the end of the County's fiscal year and before the final adoption of the budget.

After the public hearing is completed, the budget committee adopts a final budget and transmits that budget to the County commissioners. The County commissioners may not further increase, decrease, alter or revise the budget adopted by the budget committee, except by unanimous vote of the County commissioners. If the adopted budget is changed by the County commissioners, the budget committee may reject that change by a 2/3 vote of its membership. Those actions are final and are not subject to further action by either the County commissioners or the budget committee.

COUNTY OF YORK, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

An annual budget is adopted for the general fund and jail fund. No budgets are officially adopted for the special revenue funds, although budgets are generally prepared as part of the oversight procedures in regards to these funds.

Deposits and Investments

The County's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

It is the County's policy to value investments at fair value. None of the County's investments are reported at amortized cost. The County Treasurer is authorized by State Statutes to invest all excess funds in the following:

- Obligations of the U.S. Government, its agencies and instrumentalities.
- Certificates of deposits and other evidences of deposits at banks, savings and loan associations, and credit unions.
- Repurchase agreements
- Money market mutual funds

The County of York's investment policy does not conflict with the State of Maine Statutes. The policy is comprehensive and is applicable to all County funds.

Inventories

Inventories of supplies are considered to be expenditures at the time of purchase and are not included in the general fund balance sheet.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Interfund Receivables and Payables

Any residual balances outstanding between governmental activities and business-type activities are reported in the governmental-wide financial statements as "internal balances". Interfund balances and transactions have been eliminated in the government-wide financial statements.

COUNTY OF YORK, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Transactions Between Funds

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both Governmental and Proprietary Funds (if applicable).

Allowance for Uncollectible Accounts

The allowance for uncollectible accounts is estimated to be \$0 as of June 30, 2014.

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Infrastructure such as streets, traffic signals, and signs are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful lives.

The assets are valued at historical cost when available and estimated historical cost where actual invoices or budgetary data was unavailable. Donated fixed assets are valued at their estimated fair market value on the date received. All retirements have been recorded by eliminating the net carrying values.

Infrastructure assets include roads, bridges, underground pipe (other than related to independently owned utilities), traffic signals, etc. The County has no recorded infrastructure.

Estimated useful lives are as follows:

Buildings	20 - 50 years
Infrastructure	50 - 100 years
Machinery and equipment	3 - 50 years
Vehicles	3 - 25 years

COUNTY OF YORK, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Long-term Obligations

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in government-wide statements. The long-term debt consists primarily of bonds payable, capital leases, and compensated absences.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary fund is the same in the fund statements as it is in the government-wide statements.

Compensated Absences

In accordance with GASB Statement No. 16 Accounting for Compensated Absences, vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the County will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability is based on the sick leave accumulated at June 30 by those employees who are currently eligible to receive termination payments and by those employees for whom it is probable they will become eligible to receive termination benefits in the foreseeable future.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at the balance sheet date, and reduced to the maximum payment allowed by contract and/or statute, plus any applicable additional salary related payments.

As of June 30, 2014, the liability for any unpaid compensated absences was \$610,143.

COUNTY OF YORK, MAINE

JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Position / Fund Balances

Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or restricted net position.

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components – nonspendable, restricted, committed, assigned and unassigned.

Nonspendable – This includes amounts that cannot be spent either because they are not in spendable form or because they are legally or contractually required to be maintained intact.

Restricted – This includes amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – This includes amounts that can be used only for specific purposes determined by a formal action of the County Commissioners. Please refer to the budgeting process for the authority for committing items within the budget.

Assigned – This includes amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The authority for assigning fund balance is expressed by the County Commissioners.

Unassigned – This includes all other spendable amounts. The general fund is the only fund that can report a positive unassigned fund balance amount. Other governmental funds besides the general fund can only report a negative unassigned fund balance amount.

COUNTY OF YORK, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the County considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the County meeting vote has provided otherwise in its commitment or assignment actions.

The County is in the process of updating a set of financial policies to guide the financial operation of the County. Included in the policies will be guidelines for accumulating and maintaining an operating position in certain budgeted governmental funds such that annual expenditures shall not exceed annual resources, including fund balances. Other funds shall be fully self-supporting to the extent that the fund balance or retained earnings of each fund shall be zero or greater.

Revenue Recognition - Property Taxes - Modified Accrual Basis

The County's property tax for the current period was voted on the assessed value for all real and personal property located in the County. Property taxes for the transitional year budget are carried as receivables for any unpaid balances.

Program Revenues

Program revenues include all directly related income items applicable to a particular program (grant income/expenses).

Encumbrance Accounting

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end. The County does not utilize encumbrance accounting for its general fund.

Use of Estimates

During the preparation of the County's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent items as of the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results may differ from these estimates.

COUNTY OF YORK, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 2 - DEPOSITS AND INVESTMENTS

The County's investment policies, which follow state statutes, authorize the County to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Maine, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. These investment policies apply to all County funds.

Deposits:

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the County will not be able to recover its deposits. The County does not have a policy covering custodial credit risk for deposits. However, the County maintains deposits in qualifying financial institutions that are a member of the FDIC or NCUSIF as defined in Title 30-A, Section 5706 of the Maine Revised Statutes. At June 30, 2014, the County's cash and cash equivalents amounting to \$6,507,422 were comprised of deposits of \$6,800,457. Of these deposits, \$519,916 was insured by federal depository insurance and consequently not exposed to custodial credit risk, and \$6,280,541 was collateralized with securities held by the financial institution in the County's name.

<u>Account Type</u>	<u>Bank Balance</u>
Checking accounts	\$ 5,901,098
Savings accounts	208,096
Repurchase agreements	691,263
	<u>\$ 6,800,457</u>

Investments:

Custodial credit risk for investments is that, in the event of failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Currently, the County does not have a policy for custodial credit risk for investments.

COUNTY OF YORK, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 2 - DEPOSITS AND INVESTMENTS (CONTINUED)

At June 30, 2014, the County had \$265,429 of investments. These investments were in mutual funds. The maturity of these is not applicable. These investments were fully covered by the Securities Investor Protection Corporation (SIPC).

Credit risk – Statutes for the State of Maine authorize the County to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Maine, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. The County does not have an investment policy on credit risk.

Interest rate risk – is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from fluctuations in interest rates.

NOTE 3 – INTERFUND RECEIVABLES AND PAYABLES

Interfund balances at June 30, 2014 consisted of the following individual fund receivables and payables.

	Receivables (Due from)	Payables (Due to)

NOTE 10 - DEFINED BENEFIT PENSION PLAN

MAINE PUBLIC EMPLOYEES RETIRMENT SYSTEM

A. Plan Description

The County participates in the Maine Public Employees Retirement System, a cost-sharing multiple-employer defined benefit pension plan which covers employees who work full-time at the County. The system requires that both employees and the County contribute, and provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Title 5 of the Maine Revised Statutes Annotated assigns the authority to establish and amend benefit provisions to the PLD's Consolidated Plan Board of Trustees. The Maine Public Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for plan participants. That report may be obtained by writing to Maine State Retirement System, 46 State House Station, Augusta, Maine 04333 or by calling (800) 451-9800.

NOTE 10 - DEFINED BENEFIT PENSION PLAN (CONTINUED)

B. Funding Policy

The contribution requirements of plan members and the County are established and may be amended by the PLD's Consolidated Board of Trustees. The County's corrections and police department employees are part of special plans "2C" and "1C" and are required to contribute 6.5% of their annual salary. All other full-time County employees are part of regular plan "AC" and are required to contribute 6.5% of their annual salary. The County is required to contribute an actuarially determined rate of special plans "2C" and "1C" and regular plan "AC" members' covered payroll annually to the system along with a predetermined initial unpooled unfunded actuarial liability (IUUAL) rate set by the system. The IUUAL can either be a monthly payment or credit, which is added to or subtracted from the employer's percentage of employees' covered payroll to determine the employers actual cost. The County's contributions to the plan for the years ended June 30, 2014, 2013 and 2012 were: \$371,853, \$163,666 (six month transition budget), and \$292,039, respectively.

As of June 30, 2013, the County had an unfunded actuarial accrued liability credit of \$139,775, computed using the actuarial method used for funding purposes. (The amount of the unfunded actuarial accrued liability credit as of June 30, 2014 is not currently available.) This credit is being used to reduce future contributions and is being amortized over 4 years from July 1, 2013.

NOTE 11 - DEFERRED COMPENSATION PLAN

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Service Code Section 457. The plan is available to County employees as part of a collective bargaining agreement and/or County policy. The deferred compensation is not available to employees until termination, retirement, death, or financial hardship, unforeseen emergency.

Participants' rights under the plan are equal to those of the County's in an amount equal to the fair market value of the deferred amount for each participant. All assets and income of the plan are held in trust for the exclusive benefit of the participants and their beneficiaries.

It is in the opinion of the County's management that the County has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor.

COUNTY OF YORK, MAINE

NOTES TO FINANCIAL STATEMENTS

NOTE 11 - DEFERRED COMPENSATION PLAN (CONTINUED)

The plan permits the employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The plan has provisions for employees to borrow or take plan assets. The plan is being maintained by The Equitable Life Assurance Society of the United States.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) to be held in a trust for the exclusive benefit of the participants and their beneficiaries.

Under the plan the County is required to contribute on behalf of each participant a pre-determined percentage determined by contract of the participants' earnings for the plan year or up to 10%. The County's contributions to the plan for the years ended June 30, 2014, 2013 and 2012 were: \$194,823, \$95,804 (six month transition budget), and \$194,741, respectively.

NOTE 14 – RISK MANAGEMENT

The County faces a full realm of risks typical of a thriving entity. Liabilities associated with torts and protections against damage of loss of assets are the general categories of risk for which the County either carries commercial insurance or is in a risk pool. Specific insurance related to these categories includes general, police and public officials' liability coverage, workers compensation, and automobile insurance. The County is liable for deductibles ranging up to \$10,000 for settlements exceeding the limits of coverage, which range from \$400,000 to \$3,000,000. The amount of settlements has not exceeded insurance coverage for each of the past three years.

NOTE 15 – CONTINGENCIES

With regard to pending legal claims or any unasserted claims, it is not feasible at this time to predict or determine their outcome. Management believes, however, that settlement amounts, if any, will not have a material adverse effect on the County's financial position.

The County participates in a risk pool for its insurances. The County may be liable for any unfunded liability resulting from participation in this risk pool. Any amount of unfunded liability is not determined at this time.

COUNTY OF YORK, MAINE

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 15 – CONTINGENCIES (CONTINUED)

The County participates in various intergovernmental grant programs which may be subject to future program compliance audits by the grantors or their representatives. Accordingly, the County's compliance with applicable grant requirement may be established at some future date. The amount, if any, of any liabilities arising from the disallowance of expenditures or ineligibility of grant revenues cannot be determined at this time.

NOTE 16 – JAIL OPERATIONS

During its 2007 Fiscal Year, the State of Maine enacted legislation known as LD 2080 "An Act to Better Coordinate and Reduce the Cost of the delivery of State and County Correctional Services", located in Public Laws 2007, Chapter 653. This Act has in essence capped what Counties can assess their municipalities for taxes to fund their corrections budgets, and will also establish the annual growth limitations for future corrections expenditures. A Board of Overseers at the State of Maine has been appointed to supervise county correction operations.

The Act has raised many accounting and auditing issues regarding both financial and budgetary reporting. It is the position of the County that it has addressed, to the best of its ability, these issues in its 2014 county and jail annual audit. At the present time issues such as the funding of accrued benefits; ownership and maintenance of correction assets; external funding of certain corrections operations; corrections capital/reserve funding and ownership; and the treatment of net asset balances (deficits) have not been specifically addressed in this Act. However, we have included a liability and offsetting receivable from the State of Maine for accrued compensated absences that are expected to be paid by the State. If the State decides not to cover these amounts, the jail will be liable for them. Any financial and/or other impact on the County and the Jail Department cannot be determined at the time of the issuance of this report.
