General Statement of Professional Experience (written by firm)

A Woman Owned Company with Disadvantaged Business Enterprise status, Casco Bay Engineering provides Structural and Civil Engineering consulting services to municipalities, architects, contractors, and others. The company's goal is to provide exceptional quality in these fields as a means to benefit clients and the engineering profession.

Founded in 2003, CBE incorporates strong analytical skills with an open communication style. CBE's services for Civil Engineering include civil and site design, site planning and approvals as well as state and local permitting. Structural Engineering services include design and analysis of structural steel, reinforced concrete, timber, masonry, and light gage metal framing in both new and existing structures. Our engineers' experiences include recreational & cultural centers, educational facilities, office complexes, theaters, & hospitals.
