**General Statement of Professional Experience (written by firm)**

Lincoln/Haney Engineering Associates is a structural engineering consulting firm that has been in business in Brunswick, Maine for 27 years. Although a large percentage of our work involves providing structural engineering services to architects, we also have extensive experience evaluating existing structures for the purpose of identifying problems and preparing associated reports, plans and specifications. These projects often involve roof structures that are frequently associated with re-roofing projects, floor structures, exterior walls and foundations.
