STATEMENT BY FIRM W.P. Brogan & Associates (WPB&A) is a Civil Engineering design and inspection firm located in Falmouth, Maine. Our history includes projects in the private and public sectors. The foundation of our firm's professional experience is derived from site development design and permitting. WPB&A has built success by providing practical knowledge of construction techniques to better design and manage construction projects throughout Maine. Our understanding of construction has led us to a significant percentage of work in the transportation and highway construction discipline.
