

# Your Opinion Matters!

---

The State of Maine ConnectME Authority is conducting a comprehensive study about broadband access and internet usage throughout the state. We want to hear from you about these and other topics:

- **Do you use the internet? Why or why not?**
- **Do you want or could you use faster internet service?**
- **Do you use the internet for home or business?**

*Your opinion matters. If you want a voice in our state's plans for bringing high-speed internet service to northern Maine, we invite you to join your neighbors and business associates in this discussion. All are welcome. Light refreshments will be served.*

---

Wednesday, October 13  
12 – 1 p.m.
