From: Tim Beaucage, Senior Planner
Date: March 2, 2016
Re: Expedited Permitting Area Removal Petitions – Rulemaking to Remove Places from the Expedited Permitting Area

In 2015 the legislature enacted [Public Law 2015, Ch. 265](#), which became effective January 1, 2016. The statutory change created a six month time window within which registered voters in a given town, township, or plantation within the Commission's jurisdiction may petition to have a place removed from the expedited area. Title 35-A, section 3453-A describes the mechanism by which the petition process is to take place, and provides the opportunity for any person to object to the removal of the specified place by requesting "substantive review" of the petition. Pursuant to the provisions of this section, when a valid petition is filed, the specified place automatically will be removed unless a person requests substantive review.

On January 7th and 14th, the Commission staff posted a number of petitions to the Commission's website. The corresponding deadlines for requesting substantive review closed on February 22nd and 29th. Although the Commission received some requests for substantive review, no requests were filed for 13 of the petitions: Big Moose Twp (21801); Harfords Point Twp (21811); Highland Plt (25150); Lexington Twp (25831); Moosehead Junction Twp (21816); Moxie Gore (25838); Parlin Pond Twp (25839); Rockwood Strip (T1 R1 NBKP) (25844); Sandbar Tract Twp (25848); The Forks Plt (25320); Trescott Township (29811); West Forks Plt (25330); and Freeman Twp (07808). In accordance with the law, each of the places, if the corresponding petition is valid, shall be removed from the expedited area through rulemaking.

A petition is valid if it is (a) received between January 1 and June 30, 2016, (b) clearly states the persons signing the petition are requesting the removal of the specified place from the expedited permitting area, (c) is signed by at least 10% of the number of registered voters residing in the township, plantation, municipality or portion thereof that voted in the most recent gubernatorial election, and (d) is on a form developed by the LUPC or meeting certain statutory criteria.

All 13 petitions were submitted within the allowable window, clearly state the signatories are requesting removal of a particular specified place from the expedited permitting area, and are on a form prepared by the LUPC. The remaining criterion that must be satisfied for a petition to be valid is the 10% signature

threshold. While the final determination as to whether this criterion is satisfied rests with the Commission, the Department of the Secretary of State has reviewed the signatures on each petition and the corresponding voter registration records. Based on its review, the Department of the Secretary of State has opined each of the 13 petitions satisfies the 10% signature threshold requirement. (See Addendum B of the Draft Basis Statement, memo from the Department of the Secretary of State dated January 20, 2016.)

Please note that the signatures on each of the attached petitions have been redacted for security purposes.

Staff has prepared the necessary rule revisions and draft basis statement for the Commission's consideration (attached).

Staff Recommendation: Staff recommends the Commission find each of the 13 petitions are valid and adopt the proposed basis statement and rule revisions to remove the 13 specified places from the Expedited Permitting Area for Wind Energy Development.

**Proposed Rule Revisions: Petitions For The Removal Of Certain
Places From The Expedited Permitting Area For Wind Energy
Development**

March 1, 2016 – Draft

The following amendments propose changes to Chapter 10, Land Use Districts and Standards for Areas within the Jurisdiction of the Maine Land Use Planning Commission. This document only includes relevant sections of Chapter 10 and indicates additions in underline and deletions with a ~~strikethrough~~.

**F. EXPEDITED PERMITTING AREA FOR WIND ENERGY
DEVELOPMENT**

The following areas, not including areas below the high water mark of coastal wetlands, comprise the expedited permitting area for wind energy development to accomplish the purposes of “An Act to Implement Recommendations of the Governor’s Task Force on Wind Power Development”, P.L. 2007, ch. 661, and “An Act To Improve Regulatory Consistency within the Jurisdiction of the Maine Land Use Planning Commission,” P.L. 2015, ch. 265. The Commission may add and remove areas within its jurisdiction to and from the expedited permitting area for wind energy development in accordance with Title 35-A, Section 3453 and Section 3453-A.

PETITIONS FOR THE REMOVAL OF CERTAIN PLACES

FROM THE EXPEDITED PERMITTING AREA FOR WIND ENERGY DEVELOPMENT

(FILING I)

March 2, 2016

STATUTORY AUTHORITY:

35 M.R.S. § 3453-A
12 M.R.S. § 685-C(5)(A)

EFFECTIVE DATE OF THE RULE AMENDMENT:

FACTUAL AND POLICY BASIS FOR THE RULE AMENDMENT:

The 123rd legislature enacted, “An Act to Implement Recommendations of the Governor’s Task Force on Wind Power Development,” Public Law 2007, Ch. 661 that became effective April 18, 2008. The Act established the expedited permitting area for wind energy development, encompassing all of the organized area of the State and a portion of the unorganized and deorganized areas now served by the Land Use Planning Commission (LUPC or Commission). As directed by that legislation, the Commission adopted through rule-making the description and map of the expedited permitting area located in the Commission’s rules as [Appendix F to Ch. 10, Land Use Districts and Standards](#).

In 2015, the legislature enacted “An Act To Improve Regulatory Consistency within the Jurisdiction of the Maine Land Use Planning Commission,” [Public Law 2015, Ch. 265](#) that became effective January 1, 2016. The statutory change creates a six month time window within which registered voters in a given town, township, or plantation within the Commission’s jurisdiction may petition to have a place removed from the expedited area. Title 35-A, section 3453-A describes the mechanism by which the petition process is to take place, and provides the opportunity for any person to object to the removal of the specified place by requesting “substantive review” of the petition. Pursuant to the provisions of this section, when a valid petition is filed, the specified place automatically will be removed unless a person requests substantive review.

Each of the petitions listed below comply with the requirements of Title 35-A, Section 3453-A(1) and (5). Specifically each individual petition:

- Was received between January 1 and June 20, 2016;
- Clearly states that the persons signing the petition are requesting the removal of the specified place from the expedited permitting area;
- Is signed by at least 10% of the number of registered voters residing in the township, plantation, municipality or portion thereof that voted in the most recent gubernatorial election;
- Is on a form provided by the Maine Land Use Planning Commission; and
- Does not include any land area within:
 - the project boundary of an existing or proposed, legally permitted expedited wind energy development,;
 - the project boundary of a proposed expedited wind energy development, as described in the development permit application, that has been accepted for processing by the Department of Environmental Protection; and
 - any specified place added by rule to the expedited permitting area in accordance with section 3453 prior to January 1, 2016.

PUBLIC NOTICE OF RULEMAKING

In accordance with Title 35-A, Section 3453-A(2), each petition was posted to the Commission’s website (www.maine.gov/dacf/lupc/projects/wind_expedited_area/wind_expedited.shtml), and email notice of receipt was provided through the Commission’s GovDelivery system to the subscribers of “LUPC Windpower Expedited Area Petitions.” The following table summarizes the public notice for each petition.

Date and Time Received

A PETITION TO REMOVE ALL OF BIG MOOSE TOWNSHIP FROM THE EXPEDITED PERMITTING AREA FOR WIND ENERGY DEVELOPMENT

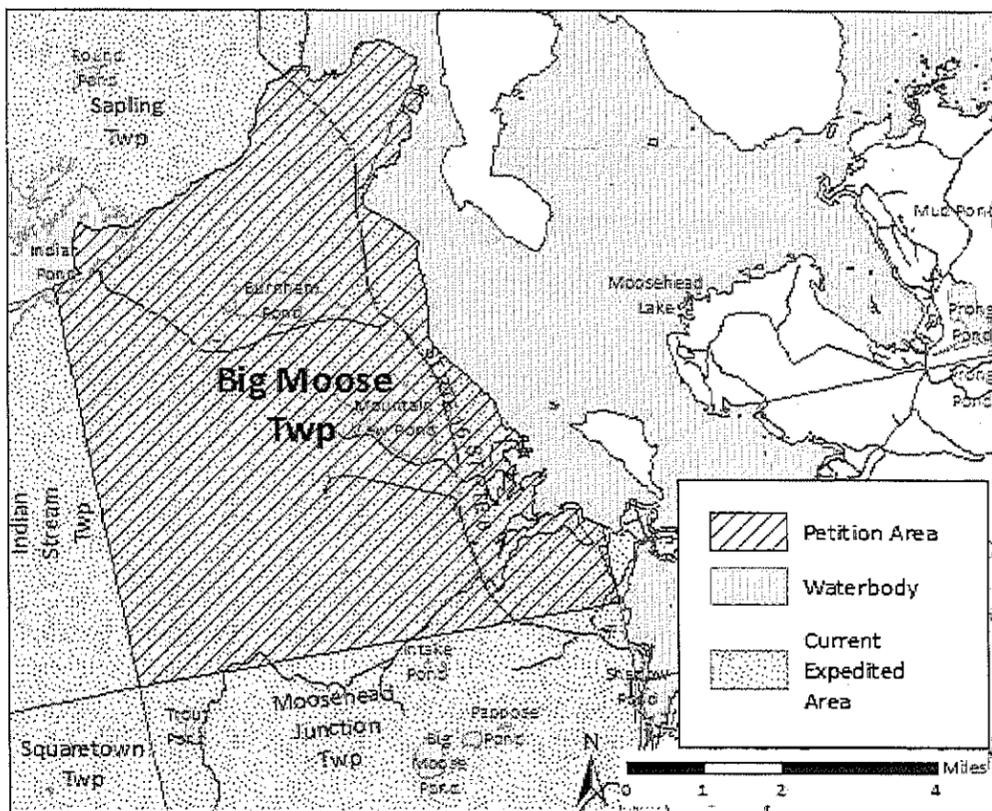

DATES A PETITION MAY BE FILED: January 1 through June 30, 2016

Before a registered voter signs any removal petition, signature gatherers must offer the voter the opportunity to read the information below.

DESCRIPTION OF PROPOSED REMOVAL

As directed in Public Law 2015, Chapter 265, The Maine Land Use Planning Commission shall, by rule, remove a specified place in the unorganized and deorganized areas from the windpower expedited permitting area if the Commission receives a petition on or before June 30, 2016 requesting the removal of the specified place from the expedited permitting area that is signed by at least 10% of the number of registered voters residing in the township, plantation, town or portion thereof that voted in the most recent gubernatorial election. If, pursuant to 35-A M.R.S. Section 3453-A(3), a person requests substantive review of the petition for removal within 45 days of the Maine Land Use Planning Commission posting notice of receipt of the petition on its publicly accessible website, a further process of evaluating the merit of the petition will take place as directed in statute.

This petition is to remove all of Big Moose Township from the windpower expedited permitting area, which would have the effect of requiring any proposed grid-scale wind energy development to obtain a rezoning from the Commission before applying for a permit to construct the facility. It would also change the standard for evaluating the visual effects of any grid-scale wind energy development in the permitting process. Signing the petition means that the voter wishes to remove the specified place from the expedited permitting area.

A PETITION TO REMOVE FREEMAN TOWNSHIP FROM THE EXPEDITED PERMITTING AREA FOR WIND ENERGY DEVELOPMENT

DATES A PETITION MAY BE FILED: January 1 through June 30, 2016

Before a registered voter signs any removal petition, signature gatherers must offer the voter the opportunity to read the information below.

DESCRIPTION OF PROPOSED REMOVAL

As directed in Public Law 2015, Chapter 265, The Maine Land Use Planning Commission shall, by rule, remove a specified place in the unorganized and deorganized areas from the windpower expedited permitting area if the Commission receives a petition on or before June 30, 2016 requesting the removal of the specified place from the expedited permitting area that is signed by at least 10% of the number of registered voters residing in the township, plantation, town or portion thereof that voted in the most recent gubernatorial election.

This petition is to remove Freeman Township from the windpower expedited permitting area, which would have the effect of requiring any proposed grid-scale wind energy development to obtain a rezoning from the Commission before applying for a permit to construct the facility. It would also change the standard for evaluating the visual effects of any grid-scale wind energy development in the permitting process. Signing the petition means that the voter wishes to remove the specified place from the expedited permitting area.

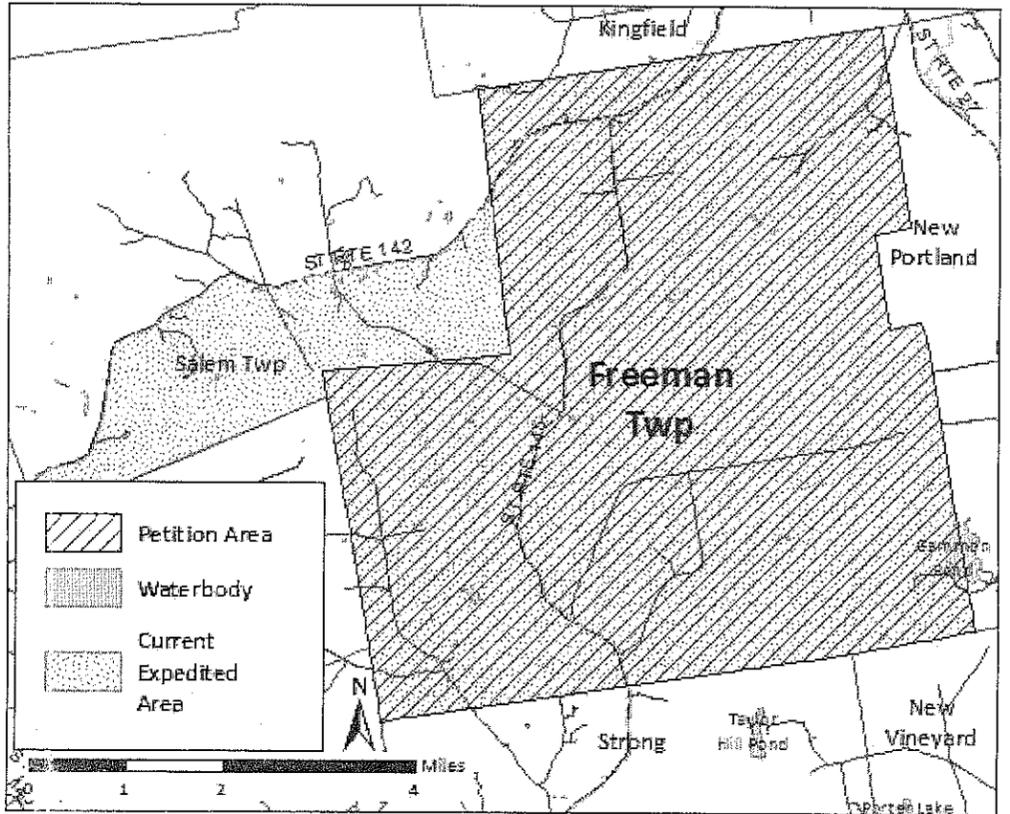

Table with 6 columns: Registrar use only, SIGNATURE, DATE SIGNED, ACTUAL STREET ADDRESS (Not P.O. Box), Town, Township or Plantation (Where Registered), NAME PRINTED. Contains 15 rows of handwritten entries.

A PETITION TO REMOVE ALL OF HARFORDS POINT TOWNSHIP FROM THE EXPEDITED PERMITTING AREA FOR WIND ENERGY DEVELOPMENT

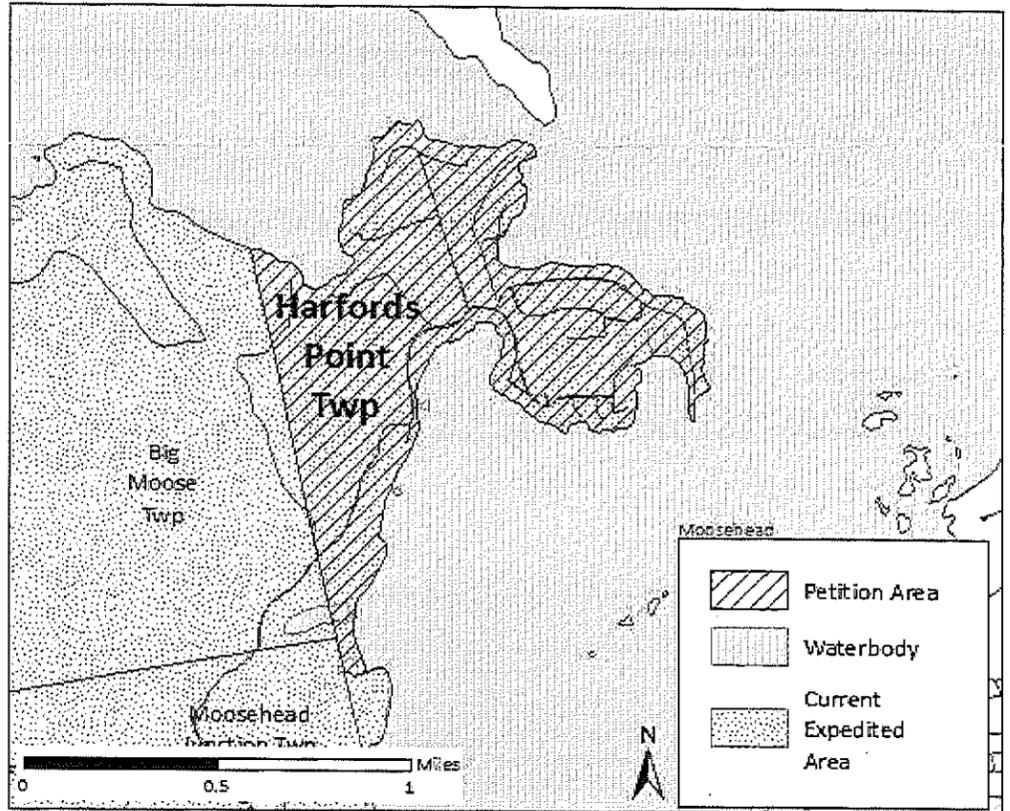

DATES A PETITION MAY BE FILED: January 1 through June 30, 2016

Before a registered voter signs any removal petition, signature gatherers must offer the voter the opportunity to read the information below.

DESCRIPTION OF PROPOSED REMOVAL

As directed in Public Law 2015, Chapter 265, The Maine Land Use Planning Commission shall, by rule, remove a specified place in the unorganized and deorganized areas from the windpower expedited permitting area if the Commission receives a petition on or before June 30, 2016 requesting the removal of the specified place from the expedited permitting area that is signed by at least 10% of the number of registered voters residing in the township, plantation, town or portion thereof that voted in the most recent gubernatorial election. If, pursuant to 35-A M.R.S. Section 3453-A(3), a person requests substantive review of the petition for removal within 45 days of the Maine Land Use Planning Commission posting notice of receipt of the petition on its publicly accessible website, a further process of evaluating the merit of the petition will take place as directed in statute.

This petition is to remove all of Harfords Point Township from the windpower expedited permitting area, which would have the effect of requiring any proposed grid-scale wind energy development to obtain a rezoning from the Commission before applying for a permit to construct the facility. It would also change the standard for evaluating the visual effects of any grid-scale wind energy development in the permitting process. Signing the petition means that the voter wishes to remove the specified place from the expedited permitting area.

As directed in Public Law 2015, Chapter 265, The Maine Land Use Planning Commission shall, by rule, remove a specified place in the unorganized and deorganized areas from the windpower expedited permitting area if the Commission receives a petition on or before June 30, 2016 requesting the removal of the specified place from the expedited permitting area that is signed by at least 10% of the number of registered voters residing in the township, plantation, town or portion thereof that voted in the most recent gubernatorial election. If, pursuant to 35-A M.R.S. Section 3453-A(3), a person requests substantive review of the petition for removal within 45 days of the Maine Land Use Planning Commission posting notice of receipt of the petition on its publicly accessible website, a further process of evaluating the merit of the petition will take place as directed in statute.

This petition is to remove Lexington Township from the windpower expedited permitting area, which would have the effect of requiring any proposed grid-scale wind energy development to obtain a rezoning from the Commission before applying for a permit to construct the facility. It would also change the standard for evaluating the visual effects of any grid-scale wind energy development in the permitting process. Signing the petition means that the voter wishes to remove the specified place from the expedited permitting area.

A PETITION TO REMOVE LEXINGTON TOWNSHIP FROM THE EXPEDITED PERMITTING AREA FOR WIND ENERGY DEVELOPMENT

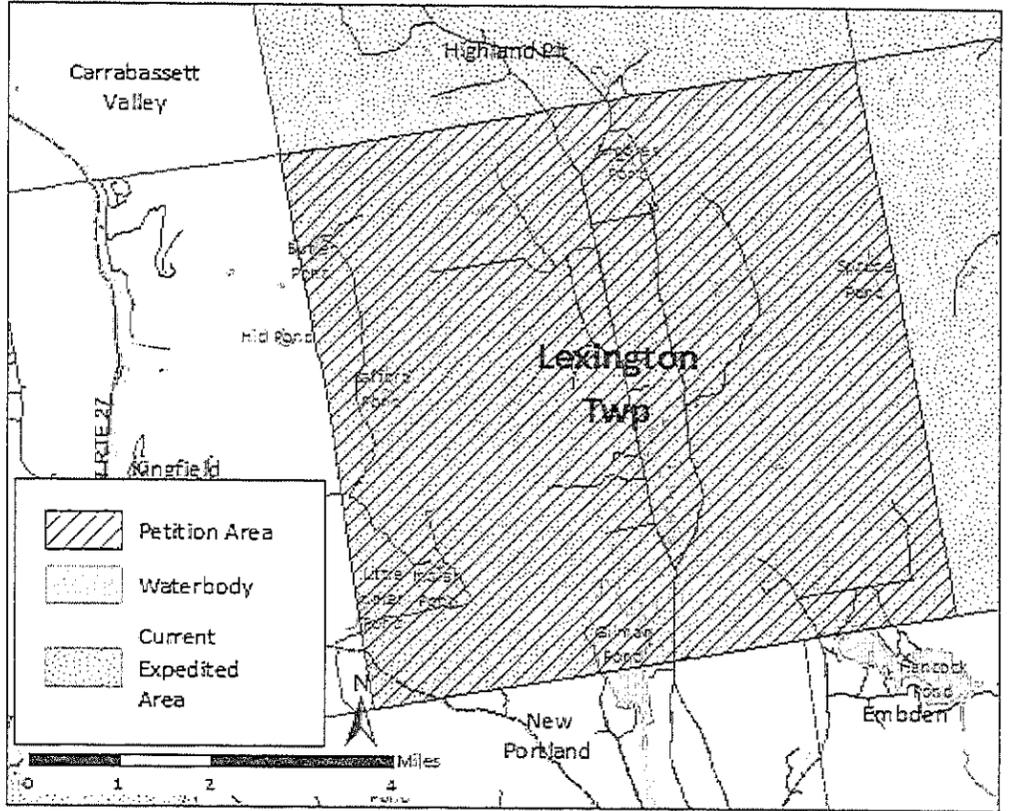

DATES A PETITION MAY BE FILED: January 1 through June 30, 2016

Before a registered voter signs any removal petition, signature gatherers must offer the voter the opportunity to read the information below.

DESCRIPTION OF PROPOSED REMOVAL

As directed in Public Law 2015, Chapter 265, The Maine Land Use Planning Commission shall, by rule, remove a specified place in the unorganized and deorganized areas from the windpower expedited permitting area if the Commission receives a petition on or before June 30, 2016 requesting the removal of the specified place from the expedited permitting area that is signed by at least 10% of the number of registered voters residing in the township, plantation, town or portion thereof that voted in the most recent gubernatorial election. If, pursuant to 35-A M.R.S. Section 3453-A(3), a person requests substantive review of the petition for removal within 45 days of the Maine Land Use Planning Commission posting notice of receipt of the petition on its publicly accessible website, a further process of evaluating the merit of the petition will take place as directed in statute.

This petition is to remove Lexington Township from the windpower expedited permitting area, which would have the effect of requiring any proposed grid-scale wind energy development to obtain a rezoning from the Commission before applying for a permit to construct the facility. It would also change the standard for evaluating the visual effects of any grid-scale wind energy development in the permitting process. Signing the petition means that the voter wishes to remove the specified place from the expedited permitting area.

A PETITION TO REMOVE MOOSEHEAD JUNCTION TOWNSHIP FROM THE EXPEDITED PERMITTING AREA FOR WIND ENERGY DEVELOPMENT

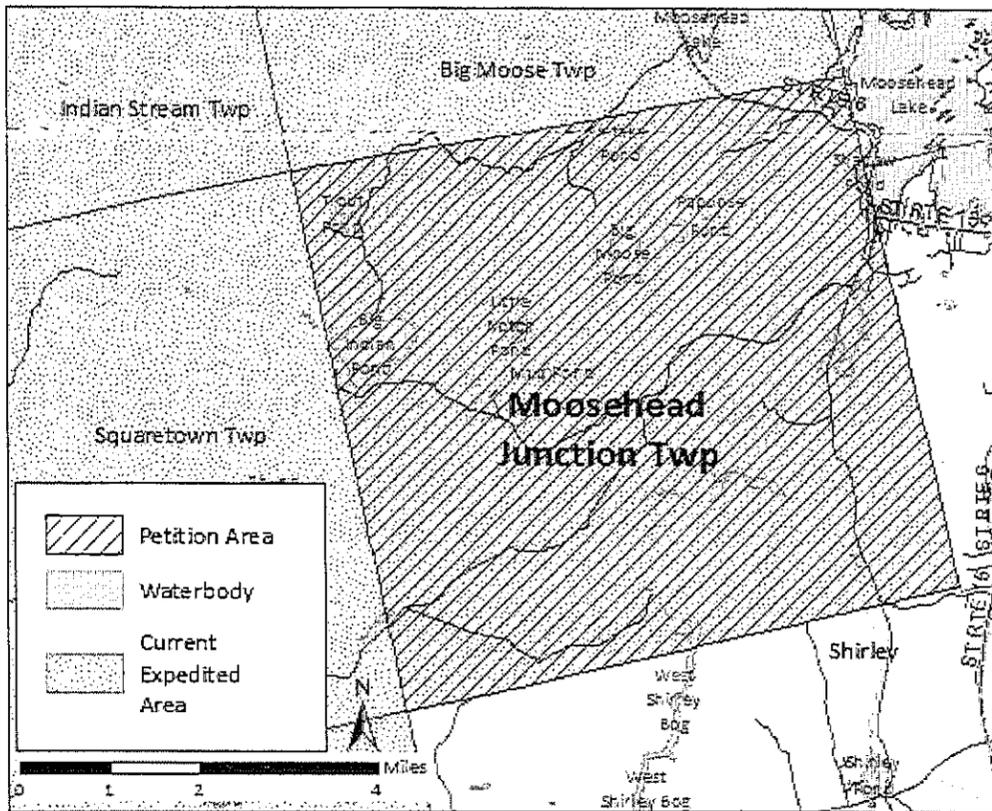

DATES A PETITION MAY BE FILED: January 1 through June 30, 2016

Before a registered voter signs any removal petition, signature gatherers must offer the voter the opportunity to read the information below.

DESCRIPTION OF PROPOSED REMOVAL

As directed in Public Law 2015, Chapter 265, The Maine Land Use Planning Commission shall, by rule, remove a specified place in the unorganized and deorganized areas from the windpower expedited permitting area if the Commission receives a petition on or before June 30, 2016 requesting the removal of the specified place from the expedited permitting area that is signed by at least 10% of the number of registered voters residing in the township, plantation, town or portion thereof that voted in the most recent gubernatorial election. If, pursuant to 35-A M.R.S. Section 3453-A(3), a person requests substantive review of the petition for removal within 45 days of the Maine Land Use Planning Commission posting notice of receipt of the petition on its publicly accessible website, a further process of evaluating the merit of the petition will take place as directed in statute.

This petition is to remove Moosehead Junction Township from the windpower expedited permitting area, which would have the effect of requiring any proposed grid-scale wind energy development to obtain a rezoning from the Commission before applying for a permit to construct the facility. It would also change the standard for evaluating the visual effects of any grid-scale wind energy development in the permitting process. Signing the petition means that the voter wishes to remove the specified place from the expedited permitting area.

A PETITION TO REMOVE ALL OF ROCKWOOD STRIP (T1 R1 NBKP) FROM THE EXPEDITED PERMITTING AREA FOR WIND ENERGY DEVELOPMENT

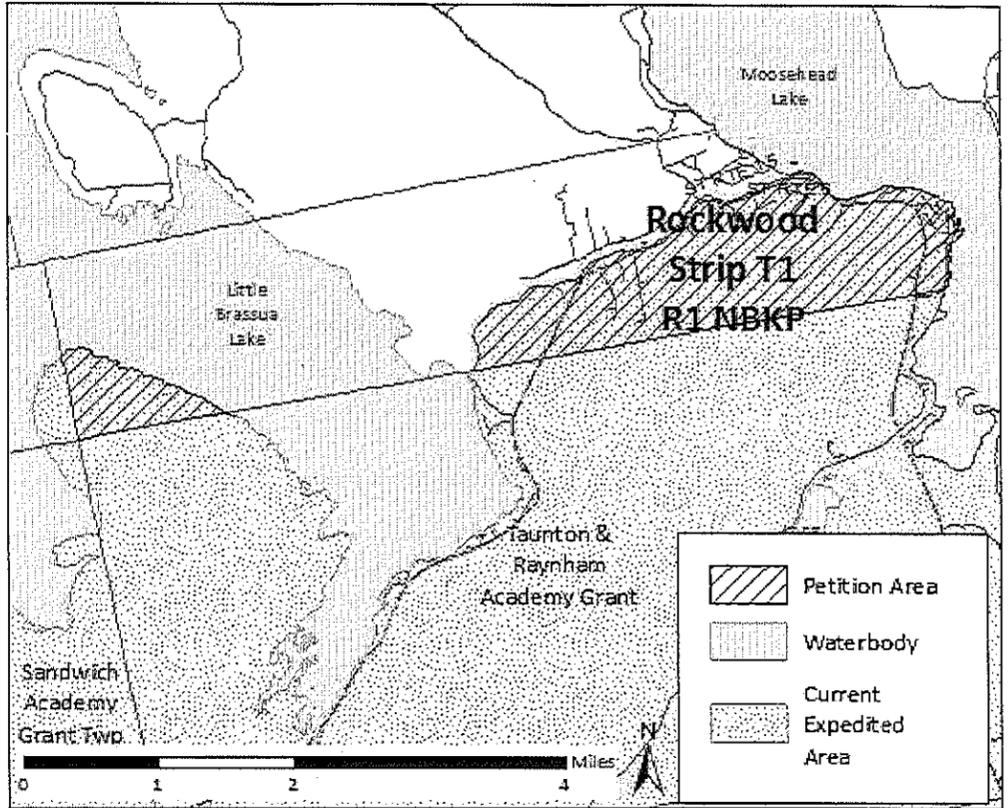

DATES A PETITION MAY BE FILED: January 1 through June 30, 2016

Before a registered voter signs any removal petition, signature gatherers must offer the voter the opportunity to read the information below.

DESCRIPTION OF PROPOSED REMOVAL

As directed in Public Law 2015, Chapter 265, The Maine Land Use Planning Commission shall, by rule, remove a specified place in the unorganized and deorganized areas from the windpower expedited permitting area if the Commission receives a petition on or before June 30, 2016 requesting the removal of the specified place from the expedited permitting area that is signed by at least 10% of the number of registered voters residing in the township, plantation, town or portion thereof that voted in the most recent gubernatorial election. If, pursuant to 35-A M.R.S. Section 3453-A(3), a person requests substantive review of the petition for removal within 45 days of the Maine Land Use Planning Commission posting notice of receipt of the petition on its publicly accessible website, a further process of evaluating the merit of the petition will take place as directed in statute.

This petition is to remove all of Rockwood Strip (T1 R1 NBKP) from the windpower expedited permitting area, which would have the effect of requiring any proposed grid-scale wind energy development to obtain a rezoning from the Commission before applying for a permit to construct the facility. It would also change the standard for evaluating the visual effects of any grid-scale wind energy development in the permitting process. Signing the petition means that the voter wishes to remove the specified place from the expedited permitting area.

A PETITION TO REMOVE ALL OF TRESCOTT TOWNSHIP FROM THE EXPEDITED PERMITTING AREA FOR WIND ENERGY DEVELOPMENT

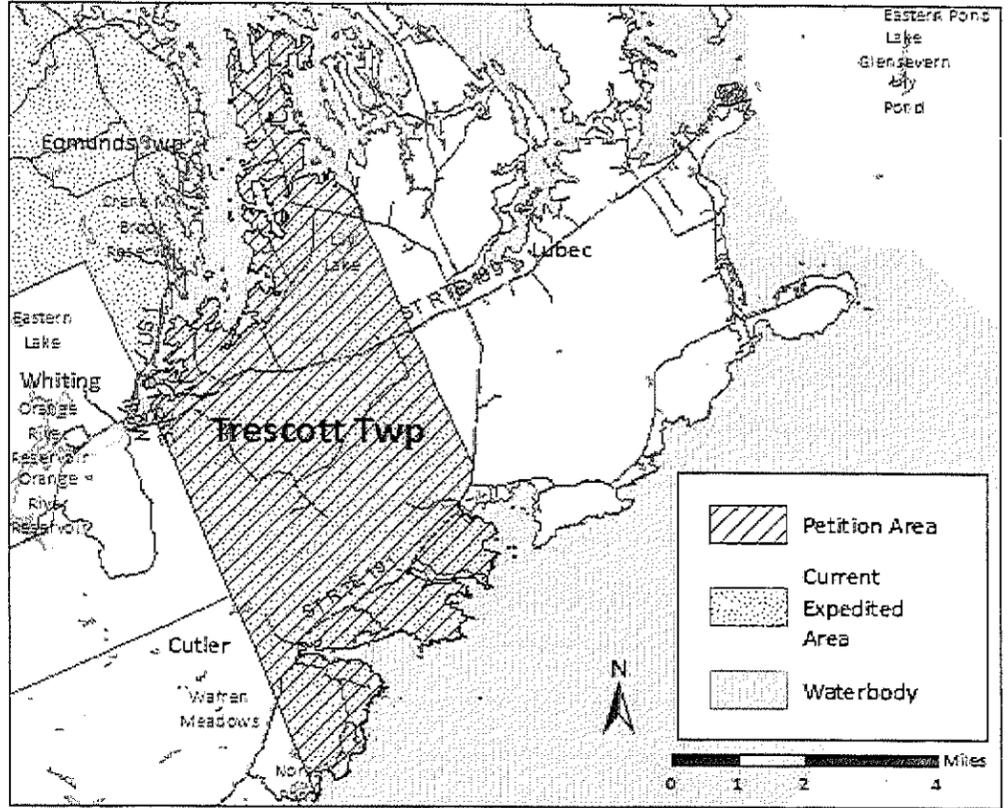

DATES A PETITION MAY BE FILED: January 1 through June 30, 2016

Before a registered voter signs any removal petition, signature gatherers must offer the voter the opportunity to read the information below.

DESCRIPTION OF PROPOSED REMOVAL

As directed in Public Law 2015, Chapter 265, The Maine Land Use Planning Commission shall, by rule, remove a specified place in the unorganized and deorganized areas from the windpower expedited permitting area if the Commission receives a petition on or before June 30, 2016 requesting the removal of the specified place from the expedited permitting area that is signed by at least 10% of the number of registered voters residing in the township, plantation, town or portion thereof that voted in the most recent gubernatorial election. If, pursuant to 35-A M.R.S. Section 3453-A(3), a person requests substantive review of the petition for removal within 45 days of the Maine Land Use Planning Commission posting notice of receipt of the petition on its publicly accessible website, a further process of evaluating the merit of the petition will take place as directed in statute.

This petition is to remove all of Trescott Township from the windpower expedited permitting area, which would have the effect of requiring any proposed grid-scale wind energy development to obtain a rezoning from the Commission before applying for a permit to construct the facility. It would also change the standard for evaluating the visual effects of any grid-scale wind energy development in the permitting process. Signing the petition means that the voter wishes to remove the specified place from the expedited permitting area.

As directed in Public Law 2015, Chapter 265, The Maine Land Use Planning Commission shall, by rule, remove a specified place in the unorganized and deorganized areas from the windpower expedited permitting area if the Commission receives a petition on or before June 30, 2016 requesting the removal of the specified place from the expedited permitting area that is signed by at least 10% of the number of registered voters residing in the township, plantation, town or portion thereof that voted in the most recent gubernatorial election. If, pursuant to 35-A M.R.S. Section 3453-A(3), a person requests substantive review of the petition for removal within 45 days of the Maine Land Use Planning Commission posting notice of receipt of the petition on its publicly accessible website, a further process of evaluating the merit of the petition will take place as directed in statute.

This petition is to remove all of Trescott Township from the windpower expedited permitting area, which would have the effect of requiring any proposed grid-scale wind energy development to obtain a rezoning from the Commission before applying for a permit to construct the facility. It would also change the standard for evaluating the visual effects of any grid-scale wind energy development in the permitting process. Signing the petition means that the voter wishes to remove the specified place from the expedited permitting area.

Re: Windpower Petitions – Signature Certification

I have completed the signature confirmation for the townships and plantations listed in the chart below. The chart provides the name of the township or plantation, the number of signatures required (based on 10% of the number of residents who voted in the most recent gubernatorial election) and the number of signatures certified. In the last column, I have noted any additional items you may want to consider when determining the validity of the petition.

Jurisdiction Name	Required Signatures	Certified Signatures	Notes
Lexington Township	9	84	
Carroll Plantation	8	10	
Highland Plantation	4	19	
Big Moose Township	1	4	
Dennistown Plantation	3	11

Parlin Pond Township	1	6	
Rockwood Strip Township	13	38	
Sandbar Tract Township	1	4	
Taunton & Raynham Academy Grant Township	2	9	
The Forks Plantation	5	6	
West Forks Plantation	4	12	
Concord Township	9	13	Circulator’s Oath notarization not dated. See additional comments below.
Freeman Township	16	19	
Milton Township	7	17	
Trescott Township	15	130	

Concord Township – After a circulator of a citizen initiative petition has completed gathering signatures on any petition form, that circulator must appear before a Notary Public and take the required oath. While reviewing the petition filed on behalf of Concord Township, I noticed that the circulator of the petition (James R. Young) did appear before a Notary Public (Darlene H. James); however, the Notary failed to date her notarization. For an initiative petition, a date is required so that it can be determined that all the signatures were gathered before the oath is administered. For a citizen initiative petition certification process, the Secretary of State would not accept these signatures.

The petition necessary to remove an area from the expedited permitting area is described in Title 35-A MRS §3454-A, sub-§3 which states:

(3) Is on a form consistent with Title 5, section 8055, a form provided by the Maine Land Use Planning Commission or a form otherwise determined to be sufficient for the purposes by the Maine Land Use Planning Commission;

Title 5, section 8055 further states “The petition must be verified and certified in the same manner provided in Title 21-A, section 354, subsection 7, prior to its presentation to the agency.” Title 21-A, section 354, subsection 7 provides a process for certification for a non-party nomination petition and also requires that the circulator of this type of petition “shall verify by oath or affirmation before a notary public or other person authorized by law to administer oaths or affirmations that the circulator personally witnessed all of the signatures to the petition...”.

If you determine the signatures on the Concord Township are invalid as presented, you could require a new petition for this area or return the petition to the circulator to be renotarized.

I have not included the petitions filed for Misery Gore Township or Sapling Township as a determination of residency for these voters has not yet been made. Our office is seeking the advice of our Assistant Attorney General on this issue.

Please contact me if you have any questions about the petition certification process or any other matter. I have kept copies of these petitions if there are inquiries related to a specific petition or jurisdiction.
