RE: Approved Development Permit DP 4886, Bull Hill Wind Project; Blue Sky East, LLC; T16 MD, Hancock County

Dear Ms. Boden:

Enclosed is a copy of Development Permit DP 4886 for the Bull Hill Wind Project in T16 MD, Hancock County, approved as amended by the Commission on October 5, 2011 at their regular monthly business meeting held in Ellsworth, Maine. Any changes in your plans or additional construction in the future must be evaluated by LURC staff to determine if it must be reviewed and approved as an amendment to your permit.

I have also enclosed a permit certificate, which must be posted in a visible location at the site during the period of construction. By doing so, inspectors visiting your property will know the project is authorized.

Finally, when you have completed the work, please contact this agency to arrange for a site inspection so that a Certificate of Compliance certifying that the permitted work has been completed according to the conditions of the permit may be issued.

Thank you for your patience and cooperation. Should you have any further questions or if I may be of assistance, please contact staff at the Augusta office, at (207) 287-2631.

Sincerely,

Donald E. Murphy  
Project Planner  
Planning Division
