BUILDING PERMIT BP-15296

Based on the information you have submitted in the attached application and supporting documents, the staff of the Land Use Planning Commission concludes that, if carried out in compliance with the conditions of approval below, your proposal will meet the criteria for approval, 12 M.R.S.A. §685-B(4) of the Commission's statutes and the provisions of the Commission's *Land Use Districts and Standards*. Any variation from the application or the conditions of approval is subject to prior Commission review and approval. Any variation undertaken without Commission approval constitutes a violation of Land Use Planning Commission law. In addition, any person aggrieved by this decision of the staff may, within 30 days, request that the Commission review the decision.

Billie J. MacLean — LUPC Authorized Signature

10-8-14 — Effective Date

CONDITIONS OF APPROVAL

General Conditions

1. Construction activities authorized in this permit must be substantially started within 2 years of the effective date of this permit and substantially completed within 5 years of the effective date of this permit. If such construction activities are not started and completed within this time limitation, this permit shall lapse and no activities shall then occur unless and until a new permit has been granted by the Commission.
2. This permit is dependent upon and limited to the proposal as set forth in the application and supporting documents, except as modified by the Commission in granting this permit. Any variation is subject to prior review and approval of the Maine Land Use Planning Commission. Any variation from the application or the conditions of approval undertaken without approval of the Commission constitutes a violation of Land Use Planning Commission law.
3. Structures authorized under this permit, as well as filling/grading/soil disturbance and cleared openings created as part of construction activities authorized under this permit, must be located to meet the road, property line, water and wetland setback distances, exterior dimensions and building heights listed in Sections 4, 7 and 8 and approved by this permit.
4. Temporary and permanent sedimentation control measures must be implemented to effectively stabilize all areas of disturbed soil and to catch sediment from runoff water before it leaves the construction site so that sediment does not enter water bodies, drainage systems, water crossings, wetlands or adjacent properties. Clearing and construction activities, except those necessary to establish sedimentation control devices, shall not begin until all erosion and sedimentation control devices (including ditches, culverts, sediment traps, settling basins, hay bales, silt fences, etc.) have been installed and stabilized. Once in place, such devices shall be maintained to ensure proper functioning.
5. Effective, temporary stabilization of all disturbed and stockpiled soil must be completed at the end of each work day. All temporary sedimentation and erosion control devices shall be removed after construction activity has ceased and a cover of healthy vegetation has established itself or other appropriate permanent control measures have been effectively implemented. Permanent soil stabilization shall be completed within one week of inactivity or completion of construction.
6. Cleared openings created as part of construction activities authorized under this permit must be effectively stabilized and revegetated.
7. All imported fill material must be free of hazardous or toxic materials and must not contain debris, trash, or rubbish.
8. Unless otherwise proposed in Question 8.4 and by the submittal of **Exhibit G, Erosion and Sediment Control Plan**, and approved by this permit, soil disturbance must not occur when the ground is frozen or saturated.
9. Topsoil must not be removed from the site except for that necessary for construction activities authorized in this permit. Topsoil must be stockpiled at least 100 feet from any water body.
10. The permittee shall not advertise Land Use Planning Commission approval without first obtaining approval for such advertising. Any such advertising shall refer to this permit only if it also notes that the permit is subject to conditions of approval.
11. In the event the permittee should sell or lease this property, the buyer or lessee shall be provided a copy of the approved permit and conditions of approval. The new owner or lessee should then contact the Land Use Planning Commission to have the permit transferred into his/her name. If there are no additional changes the transfer can be accomplished on a Minor Change Form.
12. All exterior lighting must be located and installed so as to illuminate only the target area to the extent possible. Exterior lighting must not produce a strong, dazzling light or reflection beyond lot lines onto neighboring properties, water bodies, or roadway so as to impair driver vision or to create nuisance conditions.

13. The scenic character and healthful condition of the area covered under this permit must be maintained. The area must be kept free of litter, trash, junk cars and other vehicles, and any other materials that may constitute a hazardous or nuisance condition.
14. The permittee shall secure and comply with all applicable licenses, permits, authorizations, and requirements of all federal, state, and local agencies including but not limited to: Air and Water Pollution Control Regulations; Subsurface Wastewater Disposal System approval from the Local Plumbing Inspector and/or Maine Department of Health and Human Services, Subsurface Wastewater Program; and the Maine Department of Transportation, Driveway Entrance Permit, a physical E-911 address from your County Commissioner's Office.
15. Once construction is complete, the permittee shall submit a self-certification form, notifying the Commission that all conditions of approval of this permit have been met. The permittee shall submit all information requested by the Commission demonstrating compliance with the terms of this permit.

Development in Flood Prone Areas

16. The permitted structure(s) must be constructed according to the information submitted in the **Supplement S-4: Requirements for Development in Flood Prone Areas and associated Exhibits**.
17. Notwithstanding Condition 1, construction activities authorized within P-FP subdistricts, FEMA zones, and other areas prone to flooding must be substantially started within 180 days of the effective date of this permit and substantially completed within 5 years of the effective date of this permit. If such construction activities are not started and completed within this time limitation, this permit shall lapse and no activities shall then occur unless and until a new permit has been granted by the Commission.
18. All other required state or federal permits must be submitted to the Commission PRIOR to the start of construction.
19. The permitted structures must be designed or modified and adequately anchored to prevent flotation (excluding floating piers and docks), collapse or lateral movement resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.
20. The permittee(s) must use construction materials that are resistant to flood damage, use construction methods and practices that will minimize flood damage, and use electrical, heating, ventilation, plumbing, and air conditioning equipment, and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during flooding conditions.
21. The improvements to the dwelling must not increase the market value of the structure by more than 50%.

For All Residential Development

1. APPLICANT INFORMATION

Applicant Name(s)	Daytime Phone	FAX
Sandra E. Brawders	415-860-5340	N/A
Mailing Address		**Email**
280 Princeton Ave.		jeh.pennington@cbhoral.com
Town		**State** / **Zip Code**
Mill Valley		Ca. 94941

2. PROJECT LOCATION AND PROPERTY DETAILS

Township, Town or Plantation	County
Cross Lake TWP	Aroostook
Tax Information *(check tax bill)* Map: AR031 Plan: 01 Lot: 108	**Deed or Lease Information** *(check deed or lease)* Book: Page: Lease #: 2748 G 1705
Lot size *(in acres, or in square feet if less than 1 acre)* 10,000 S.F. .23 acres	**Lot Coverage** *(in square feet)* 1371 S.F.
All Zoning on Property *(check the LUPC map)* D-RS P-FP FEMA	**Zoning at Development Site** D-RS P-FP FEMA

Road Frontage. List the name(s) and frontage(s) (in feet) for any public or private roads, or other rights-of-way adjacent to your lot:

Road #1: Beaulieu provides Frontage ____ ft.
Road #2: access to leased lots Frontage ____ ft.

Water Frontage. List the name(s) and frontage(s) (in feet) for any lakes, ponds, rivers, streams, or other waters on or adjacent to your lot:

Waterbody #1: Cross Lake Frontage 100' ft.
Waterbody #2: ____ Frontage ____ ft.

LUPC Approved Subdivision. List the LUPC approved subdivision number: ..... SP ____ and SP Lot #: ____

If your property is not part of subdivision previously approved the Commission, please continue to Land Division History below. *(check your deed or contact the LUPC office that serves your area)*

Land Division History. Using your deed as a starting point, trace the ownership history and configuration changes of your property back 20 years from today. List any division of those lots from which your property originated (use additional sheet of paper if needed).

(example: Amy Adams to Rob Roberts 1/12/1997 10 acres)

this is leased lot to S. Brawders From Great Northern Co. to Irving to Allagash Timberlands L.P. See lease attached

3. EXISTING STRUCTURES OR USES (Fill in a line for each existing structure)

Previously issued Building Permit number (if applicable) ____

* **4.2 HOME OCCUPATIONS: If use of your property includes expanding or starting a home occupation,** you must complete Supplement S-1: Questions for Home Occupations. Contact the LUPC office serving your area or download at www.maine.gov/dacf/lupc/. *Please note additional fees apply to home occupations, see instructions for the appropriate fees.*

** **4.3 CAMPSITES: If use of your property includes a campsite for your personal use (e.g., will not be rented):**

a. Will the tents, tent trailer(s), pickup camper(s), recreational vehicle(s), trailer(s) or similar devices be located on the lot for less than 120 days in a calendar year? ☐YES ☐NO

b. Will the camper(s), trailer(s), and/or recreational vehicle(s) be registered and road ready? ☐YES ☐NO

c. Will the campsite have access to an on-site pressurized water supply (and not a self-contained water tank with pump)? ☐YES ☐NO

d. Will the campsite have access to permanent structures other than an outhouse, fireplace, picnic table, or lean-tos? ☐YES ☐NO

*** **4.4 RECONSTRUCTIONS OR NEW ACCESSORY STRUCTURES: If you are constructing a new accessory structure, reconstructing an existing structure, or adding a permanent foundation:**

a. If the structure or foundation will not meet the LUPC's minimum setback distances from property lines, roads, water bodies or wetlands, explain what physical limitations (lot size, slope, location of septic system, etc.) prevent the structure or foundation from meeting setbacks:

This project is maintenance of existing non-permanent foundations. See detail sheets provided.

b. For reconstructions, has the existing structure been damaged, destroyed or removed from your property? ☐YES ☐NO

If YES, was the structure in regular active use within a 2-year period preceding the damage, destruction or removal? ☐YES ☐NO

If YES, provide the date the structure was damaged, destroyed or removed: _____

**** **4.5 DRIVEWAYS: If you are located on a public road:**

a. Are you constructing a new driveway or entrance or changing a current driveway in a way that will increase traffic volume, or create a safety or drainage concern regarding a State or State-Aid Highway? ☐YES ☐NO

If YES, *you must submit Exhibit H: Driveway/Entrance Permit. Note: If your property is located along a County or Town/Plantation Road, you should check with that office before submitting this application to see what is required.*

5. SUBSURFACE WASTEWATER DISPOSAL (SEPTIC SYSTEM) *(Note: Exhibit may be required. See instructions)*

5.1 Mark the existing type of system serving the property:
☐ **None** ☐ **Combined Subsurface System** (Tank, leach field)
☐ **Primitive Subsurface Disposal** (Privy, graywater – non-pressurized); ☐ **Common Sewer** (Connected to a sewer district)
☑ **Holding Tank** ☐ **Self-Contained Camper or RV** ☐ **Other** _____

5.2 Will any expanded, reconstructed, or new structures include new bedrooms or bathrooms; add plumbing, water fixtures, pressurized water, or the ability for human habitation; or otherwise generate additional wastewater? ☐YES ☐NO

If YES, *you may need to submit Exhibit E: Subsurface Wastewater Disposal. (see instructions on page iv)*

BP 15296

RECEIVED

OCT 0 3 2014

LUPC - ASHLAND

6. DEVELOPMENT IN FLOOD PRONE AREAS *(Note: Supplement may be required. See instructions.)*

6.1 Is your proposed activity located within a mapped P-FP (Flood Prone Area Protection) Subdistrict, a mapped FEMA (Federal Emergency Management Agency) flood zone, or an unmapped area prone to flooding?

- P-FP Subdistrict ..... ☐YES ☑NO
- FEMA Flood Zone ..... ☑YES ☐NO
- Unmapped Area Prone to Flooding ..... ☐YES ☑NO

If you answer YES to any of these questions, you must complete Supplement S-4: *Development in Flood Prone Areas.* Contact the LUPC office serving your area or download at www.maine.gov/dacf/lupc/application_forms/index.shtml.

7. VEGETATIVE CLEARING *(Note: Exhibit may be required. See instructions.)*

7.1 What is the total amount of proposed vegetative clearing not including the driveway and the footprint of proposed structures? ..... ☐NA 300 sq. ft

If you answer NA *(not applicable) for 7.1 go to Section 8.*

7.2 Will the total amount of existing and proposed vegetative clearing within 250 feet of any lakes or rivers be less than 10,000 square feet? ..... ☑YES ☐NO ☐NA **Total:** 6,000 sq. ft.

7.3 Will the proposed clearing be located at least 50 feet from the right-of-way or similar boundary of all public roadways? ..... ☑YES ☐NO ☐NA **How Close?** 188' feet

7.4 Will the proposed clearing be located at least 75 feet from the normal high water mark of any body of standing water less than 10 acres in size, any tidal water, or flowing water draining less than 50 square miles? ..... ☐YES ☐NO ☐NA **How Close?** _____ feet

7.5 Will the proposed clearing be located at least 100 feet from the normal high water mark of the lake or river? ..... ☐YES ☑NO ☐NA **How Close?** 75' feet

7.6 **If you answer NO to any of these questions,** please explain why your vegetative clearing proposal is necessary and how it will not create an undue adverse impact on the resources and uses in the area: There is no bulk clearing to be done. There is one tree against camp. The rest is cutting of small growth to access the back and one side of library to preform maintaince. See site plan for areas.

7.7 **Buffering in Prospectively Zoned Areas.** Is your property located in one of the following Prospectively Zoned Plantations or Townships? ..... ☐YES ☐NO

Adamstown Twp.	Dallas Plt.	Lincoln Plt.	Magalloway Plt.
Rangeley Plt.	Richardsontown Twp.	Sandy River Plt.	Townships C, D, and E.

If YES, please complete the following table regarding the width of the vegetative buffers at the narrowest point between the existing and proposed structures and the nearest applicable road, property line, and subdistrict setbacks as applicable:

	Width of Vegetated Buffers			
	Road	Side Property Line	Rear Property Line	Subdistrict Boundary (If D-ES or D-CI)
Standard Minimum Required:	25 feet in D-GN, D-GN2, D-GN3 50 feet in D-RS, D-RS2, D-RS3 75 feet in D-ES and D-CI	15 feet	15 feet	50 feet Buffer to other Subdistricts
This property:	_____ feet	_____ feet	_____ feet	_____ feet

Note: You may be required to submit Exhibit F: Documentation for Exceptions to Buffering Requirements. (See instructions on page iv)

8. SOIL DISTURBANCE, FILLING AND GRADING AND EROSION CONTROL *(Note: Exhibit may be required. See instructions.)*

8.1 Will your project involve disturbing soil or filling and grading? ..... ☑YES ☐NO

If YES, *please answer the following questions.* ***If NO,*** *continue to Section 9.*

8.2 What is the total area of proposed soil disturbance or filling and grading? ..... 4,265± sq. ft.

8.3 Will the area of soil disturbance or filling and grading within 250 of a lake or river be less than 5,000 sq. ft.? ..... ☐NA ☑YES ☐NO

a. **If NO,** what is the total square feet of soil disturbance or filling and grading within 250 feet? ..... _____ sq. ft.

8.4 Will all soil disturbance or filling and grading be done when the ground is NOT frozen or saturated? ..... ☑YES ☐NO

If NO, *you will need to submit Exhibit G: Erosion and Sedimentation Control Plan*

8.5 What will be the closest distance from the area to be disturbed to the nearest waterbody or wetland? ..... 15' feet

8.6 Will any removed topsoil be stockpiled at least 100 feet from water and wetlands? ..... ☑YES ☐NO

8.7 Will any fill used be free of hazardous or toxic materials, trash and rubbish? ..... ☑YES ☐NO

Question 8 continues onto the next page...

RECEIVED
OCT 03 2014
LUPC - ASHLAND

BP 15296

8. SOIL DISTURBANCE, FILLING AND GRADING AND EROSION CONTROL *(continued from previous page)*

8.8 Will all disturbed or filled area (other than driveways or walkways) be properly seeded and mulched prior to September 15 OR be heavily mulched with hay that is tacked down and a minimum of 4 inches in depth to prevent sedimentation in the spring? ☑ YES ☐ NO

8.9 Will existing waterbodies, wetlands, and culverts in the area be protected by the use of hay bales, silt fence or other measures? ☑ YES ☐ NO

8.10 What is the average slope of land between the area to be disturbed and the nearest waterbody or wetland?

☑ **10% or Less** *(Requires minimum setback of 100')* ☐ **20%** *(Requires minimum setback of 130')*

*(**Note**: Between 10% and 20% average slope, an additional 3 foot setback is required for each additional 1% of slope (example: an average slope of 12% requires a minimum setback of 106 feet.))*

☐ **30%** *(Requires minimum setback of 170')* ☐ **40%** *(Requires minimum setback of 210')*

☐ **50%** *(Requires minimum setback of 250')* ☐ **60%** *(Requires minimum setback of 290')*

☐ **70%** *(Requires minimum setback of 330')*

*(**Note**: Between 21% and 70% average slope, an additional 4 foot setback is required for each additional 1% of slope (example: an average slope of 36% requires a minimum setback of 194 feet.))*

8.11 **If you answer NO to any of these questions, or your project will not meet the minimum setback for your slope in 8.10,** please explain how your project will not create an undue adverse impact on the resources and uses in the area. Include information about erosion control devices and other plans to stabilize the site:

See attached 8.11 Exhibit

9. LAND AND WETLAND ALTERATION *(Note: Exhibit or Supplement may be required. See instructions.)*

9.1 Will your proposal alter a total of one acre or more of land area, whether upland or wetland? ☐ YES ☑ NO

If YES, you must also complete Exhibit G: Erosion and Sedimentation Control Plan and Supplement S-3: Requirements for Wetland Alterations.

9.2 Will your proposal alter any amount of land that is mapped P-WL Subdistrict, or any ground below the normal high water mark of any lake, pond, river, stream, or intertidal area? ☐ YES ☑ NO

If YES, you must also complete Supplement S-3: Requirements for Wetland Alterations.

10. APPLICANT SIGNATURE (REQUIRED) AND AGENT AUTHORIZATION (*OPTIONAL*)

Agent Name: Mike White Forest Grading + Excavation — Mike White

Daytime Phone: 207-631-2891

FAX:

Mailing Address: P.O. Box 24

Email: mswhite@reagan.com

Town: Sinclair

State: Me.

Zip Code: 04779

I have personally examined and am familiar with the information submitted in this application, including the accompanying exhibits and supplements, and to the best of my knowledge and belief, this application is complete with all necessary exhibits. I understand that if the application is incomplete or without any required exhibits that it will result in delays in processing my permit decision. The information in this application is a true and adequate narrative and depiction of what currently exists on and what is proposed at the property. I certify that I will give a copy of this permit and associated conditions to any contractors working on my project. I understand that I am ultimately responsible for complying with all applicable regulations and with all conditions and limitations of any permits issued to me by the LUPC. If there is an Agent listed above, I hereby authorize that individual or business to act as my legal agent in all matters relating to this permit application. I understand that while there is a required Statewide Maine Uniform Building and Energy Code (MUBEC) administered by the Maine Department of Public Safety, Bureau of Building Codes & Standards, the Commission's review is limited only to land use issues and the Commission does not make any findings related to the MUBEC, nor do the LUPC staff inspect buildings or enforce any provisions of that Code.

Please check **one** of the boxes below: *(see "Accessing the Project Site for Site Evaluation and Inspection" just prior to the application form)*

☑ I authorize staff of the Land Use Planning Commission to access the project site as necessary at any reasonable hour for the purpose of evaluating the site to verify the application materials I have submitted, and for the purpose of inspecting for compliance with statutory and regulatory requirements, and the terms and conditions of my permit.

☐ I request that staff of the Land Use Planning Commission make reasonable efforts to contact me in advance to obtain my permission to fully access the project site for purposes of any necessary site evaluation and compliance inspection.

All appropriate persons listed on the deed, lease or sales contract must sign below.

Supplement S-4

Requirements for development in flood prone areas

RECEIVED
OCT 03 2014
LUPC - ASH

Applicant Name(s): Sandra E. Browder

Project Location (Township): Crosslake TWP

Project Location (County): Aroostook

SECTION A: GENERAL INFORMATION

All applicants must complete Sections A and B.

1. What type of flood prone area is your property located in? (Refer to maps and check all that apply)
   - ☐ P-FP Flood Prone Area Protection Subdistrict
   - ☑ FEMA Zone A, A1-30 or AE
   - ☐ FEMA Zone VE (Coastal Floodplains) ***(also complete Section E)***
   - ☐ Unmapped Flood Prone Area

2. Will you be making a Substantial Improvement to an existing structure? ☐ Yes ☑ No

   If you are proposing maintenance and repair or renovations to an existing structure costing $1,000 or more; or if you plan to expand or rebuild a portion of an existing structure, within the next 2-3 years, it is possible that your project could be considered a substantial improvement. This worksheet will assist you in determining which structures would be substantially improved.

SUBSTANTIAL IMPROVEMENT WORKSHEET *(check your tax evaluation or recent appraisal)*

Structures to be altered (dwelling, garage, etc.*)	A. Current Market Value ($) of *ONLY* the structure being altered (Do not include land)	B. Estimated Improvement Costs ($) of the proposed improvements (Include labor costs)	C. Market Value Increase (%) (Estimated Improvement Costs (B) ÷ Current Market Value (A) x 100)
Comp+Library	$ 149,570.00	$ 35,000.00	23 %
	$	$	%
	$	$	%

*The value of a new or improved deck that is attached to any structure must be included in your calculations for that structure. If the Market Value Increase is 50% or greater, your improvement to that structure will be considered a substantial improvement. Please check the appropriate box(es) in Question 3 below and complete the required sections. If the Market Value Increase is less than 50%, your improvement to that structure will NOT be considered a substantial improvement.

3. What type of development are you proposing within the Flood Prone Area? (Check **ALL** that apply)
   - ☑ Normal Maintenance and Repair or Renovations costing $1,000 or more to any type of existing structure that do not constitute a Substantial Improvement
   - ☐ An Addition or Expansion that does not constitute a Substantial Improvement to any type of existing structure
   - ☐ Relocation, Reconstruction, or Replacement of an existing structure that does not constitute a Substantial Improvement ***(also complete Section C)***
   - ☐ New Permanent Foundation; Reconstruction or Replacement of an Existing Permanent Foundation ***(also complete Section C)***
   - ☐ Driveway, Land Management Road, Road Project, or Trail
   - ☐ Docking Structure, Noncommercial, in VE Zone ***(also complete Section E)***
   - ☐ Shoreland Alteration (Riprap, etc.)
   - ☐ Other Development or Activity (Describe): _____

   New Construction or Placement or Substantial Improvement of the following:
   - ☐ Residential Structure, including Accessory Structures in P-FP, A1-A30, AE or A Zones ***(also complete Sections C and D)***
   - ☐ Residential Structure, including Accessory Structures in VE Zone ***(also complete Sections C and E)***
   - ☐ Manufactured Home ***(also complete Sections C and F)***
   - ☐ Recreational Vehicle ***(also complete Sections C and F)***
   - ☐ Nonresidential Structure, including Accessory Structures ***(also complete Sections C and G)***, or Fish and Lobster Sheds in VE Zone ***(also complete Section E)***
   - ☐ Bridge ***(also complete Section H)***
   - ☐ Docking Structure, Commercial ***(also complete Sections C and I)***, in VE Zone ***(also complete Section E)***
   - ☐ Containment Wall ***(also complete Section J)***

4. Will any of the proposed development, structure(s) or any fill (including for a driveway) be located within the floodway of a river, stream or other flowing water? ☐ Yes ☑ No

   If YES, *you must attach* ***Exhibit S4-A: Floodway Development Certification****. See Instructions.*

All applicants must complete Section B (continue to next page...)

SECTION B: CONSTRUCTION SPECIFICATIONS

All applicants must complete Sections A and B. *N/A means not applicable.*

5. Will your development be designed or modified and adequately anchored to prevent flotation, collapse or lateral movement resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy? ☑ Yes ☐ No ☐ N/A

Explain: Wooden posts will be replaced with concrete pads with cement blocks to bottom of existing sills.

RECEIVED
OCT 03 2014
LUPC - AUGUSTA

6. Will your construction materials be resistant to flood damage? ☑ Yes ☐ No ☐ N/A

Explain: we will be using poured in place concrete pads with cement block piers

7. Will your construction methods and practices minimize flood damage? ☑ Yes ☐ No

Explain: Concrete pads and cement blocks won't rot, and are harder to be moved by water (not buoyant). Camp will be approx. 6" higher in elevation.

8. Will the proposed electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities be designed and/or located to prevent water from entering or accumulating within the components during flooding conditions? ☐ Yes ☐ No ☑ N/A

Explain:

9. Will any new or replacement water supply system be designed to minimize or eliminate infiltration of flood waters into the system? ☐ Yes ☐ No ☑ N/A

Explain:

10. Will any new or replacement sanitary sewage system be designed to minimize or eliminate infiltration of flood waters into the system and discharges from the system into flood waters? ☑ Yes ☐ No ☐ N/A

Explain: New Holding tank with alarm

11. Will any on-site waste disposal system be located and constructed to avoid impairment to it or contamination from it during floods? ☑ Yes ☐ No ☐ N/A

Explain: see #10 above

12. Will your development alter or relocate any portion of a watercourse? ☐ Yes ☑ No

If YES, describe the nature and extent of the watercourse alteration or relocation and show it on the site plan for your application:

*If YES, you must attach **Exhibit S4-B: Notification of Watercourse Alteration or Relocation**, and if you are in the floodway of the river or stream, you must attach **Exhibit S4-A: Floodway Development Certification**. See Instructions.*

If your answers to Section A do not require that you complete additional Sections C—J of this supplement, you may STOP HERE and attach this supplement and any required exhibits (see Instructions, p. vi) to your application.

RECEIVED
OCT 03 2014
LUPC - ASHLAND

Exhibit 8.11

This project will not have an undue adverse impact on the resources and uses in the area for the following reasons.

1. Its maintenance for an existing camp. The size of camp is not changing. The very limited cutting of trees is only to access the edges of structures. The surrounding properties are buffered considerately and that will be untouched.
2. Erosion control in site is fairly straight forward. The site has a constant gentle slope running towards lake so there will be no concentrated point discharge. We will install silt fence along the entire width of the affected area with end angled uphill a bit on corners. Proper installation is straight forward because there are no obstacles in the way, it will key in nicely. Excavation is very shallow so great amounts of dirt being moved aren't the case, and there should be no reason to pump water either. If there is it will be pumped up behind the camp to a lightly wooded area where we'll construct a settling berm to pump into. The most earth disturbance comes from the moving around the site to access the four walls for the maintenance. This will all happen uphill of silt fence. Because or time of year we anticipate using considerable mulch. As always watching the weather is key. If there is rain coming the disturbed area will be mulched before event. We will also apply the heavy mulch required over the seed at the end of work for the winter. The silt fence will be left in place until grass has been re-established in the spring/summer next year. We will also consider whether we need to beef up silt fence location with stone check dams or hay bales before shutting down for winter. With these protections there should be no erosion making it to the lake.
