

GREAT PONDS PERMIT GP-3433

Based on the information you have submitted in the attached application and supporting documents, the staff of the Land Use Planning Commission concludes that, if carried out in compliance with the conditions of approval below, your proposal will meet the criteria for approval, 12 M.R.S.A. §685-B(4) of the Commission's statutes and the provisions of the Commission's *Land Use Districts and Standards* (Chapter 10; ver. December 07, 2015). Any variation from the application or the conditions of approval is subject to prior Commission review and approval. Any variation undertaken without Commission approval constitutes a violation of Land Use Planning Commission law. In addition, any person aggrieved by this decision of the staff may, within 30 days, request that the Commission review the decision.

LUPC Authorized Signature

March 02, 2016

Effective Date

CONDITIONS OF APPROVAL

Conditions

1. The project must be completed in accordance with the Standard Conditions of Approval for All Shoreland Alteration Permits, version 04/04, a copy of which is attached.
2. The project must be completed in conformance with the purpose of the Designated Area of Cultural or Special Significance, a copy of which is attached.
3. The Boathouse SHALL NOT be utilized as a residential dwelling or a bunkhouse and shall not have sleeping quarters or plumbing.
4. A change in height of the structure is NOT authorized.
5. The permitted structure(s) must be constructed according to the information submitted in the Supplement S-4: Requirements for Development in Flood Prone Areas and associated Exhibits.
6. Construction activities authorized within P-FP subdistricts, FEMA zones, and other areas prone to flooding must be substantially started within 180 days of the effective date of this permit and substantially completed within 5 years of the effective date of this permit. If such construction activities are not started and completed within this time limitation, this permit shall lapse and no activities shall then occur unless and until a new permit has been granted by the Commission.
7. The permittee shall secure and comply with all applicable licenses, permits, authorizations, and requirements of all federal, state, and local agencies including but not limited to: US Army Corps of Engineers Regulations; Air and Water Pollution Control Regulations; Subsurface Wastewater Disposal System approval from the Local Plumbing Inspector and/or Maine Department of Health and Human Services, Subsurface Wastewater Program; the Maine Department of Transportation, Driveway Entrance Permit; and a physical E-911 address from your County Commissioner's Office. All other required state or federal permits must be submitted to the Commission PRIOR to the start of construction.
8. The permitted structures must be designed or modified and adequately anchored to prevent flotation, collapse or lateral movement resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.
9. The permittees must use construction materials that are resistant to flood damage, use construction methods and practices that will minimize flood damage. Unless the electricity provider states in writing that a shut-off cannot be installed due to technical or safety reasons, the permittees shall install an emergency shut-off that is located outside of the special flood hazard area so that power to the boathouse can be shut-off without entering water during a flooding event. The permittees shall use electrical facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during flooding conditions.
10. The improvements to the boathouse must not increase the market value of the structure by more than 50%.
11. All exterior lighting must be full cut-off fixtures and be located and installed so as to illuminate only the target area. Exterior lighting must not produce a strong, dazzling light or reflection beyond lot lines onto neighboring properties, water bodies, or roadway, or create nuisance conditions.
12. This permit is dependent upon and limited to the proposal as set forth in the application and supporting documents, except as modified by the Commission in granting this permit. Any variation is subject to prior review and approval of the Maine Land Use Planning Commission. Any variation from the application or the conditions of approval undertaken without approval of the Commission constitutes a violation of Land Use Planning Commission law.

13. Structures authorized under this permit, as well as filling/grading/soil disturbance and cleared openings created as part of construction activities authorized under this permit, must be located to meet the road, property line, water and wetland setback distances, exterior dimensions and building heights listed in Sections 4, 7 and 8 and approved by this permit.
14. Temporary and permanent sedimentation control measures must be implemented to effectively stabilize all areas of disturbed soil and to catch sediment from runoff water before it leaves the construction site so that sediment does not enter water bodies, drainage systems, water crossings, wetlands or adjacent properties. Clearing and construction activities, except those necessary to establish sedimentation control devices, shall not begin until all erosion and sedimentation control devices (including ditches, culverts, sediment traps, settling basins, hay bales, silt fences, etc.) have been installed and stabilized. Once in place, such devices shall be maintained to ensure proper functioning.
15. Effective, temporary stabilization of all disturbed and stockpiled soil must be completed at the end of each work day. All temporary sedimentation and erosion control devices shall be removed after construction activity has ceased and a cover of healthy vegetation has established itself or other appropriate permanent control measures have been effectively implemented. Permanent soil stabilization shall be completed within one week of inactivity or completion of construction.
16. Cleared openings created as part of construction activities authorized under this permit must be effectively stabilized and revegetated.
17. All imported fill material must be free of hazardous or toxic materials and must not contain debris, trash, or rubbish.
18. Unless otherwise proposed in Question 8.4 and by the submittal of **Exhibit G, Erosion and Sediment Control Plan**, and approved by this permit, soil disturbance must not occur when the ground is frozen or saturated.
19. Topsoil must not be removed from the site except for that necessary for construction activities authorized in this permit. Topsoil must be stockpiled at least 100 feet from any water body.
20. The permittee shall not advertise Land Use Planning Commission approval without first obtaining approval for such advertising. Any such advertising shall refer to this permit only if it also notes that the permit is subject to conditions of approval.
21. In the event the permittee should sell or lease this property, the buyer or lessee shall be provided a copy of the approved permit and conditions of approval. The new owner or lessee should then contact the Land Use Planning Commission to have the permit transferred into his/her name. If there are no additional changes the transfer can be accomplished on a Minor Change Form.
22. The scenic character and healthful condition of the area covered under this permit must be maintained. The area must be kept free of litter, trash, junk cars and other vehicles, and any other materials that may constitute a hazardous or nuisance condition.
23. Once construction is complete, the permittee shall submit a self-certification form, notifying the Commission that all conditions of approval of this permit have been met. The permittee shall submit all information requested by the Commission demonstrating compliance with the terms of this permit.

Building Permit

For All Residential Development

1. APPLICANT INFORMATION

Applicant Name(s) THADDEUS C. PARKER, MARGARET E. PARKER	Daytime Phone	FAX
Mailing Address 1900 S. OAKMONT STREET	Email tup4@aol.com	
Town TAMPA	State FLORIDA	Zip Code 33629

2. PROJECT LOCATION AND PROPERTY DETAILS

Township, Town or Plantation GRAND LAKE STREAM PLANTATION	County WASHINGTON COUNTY
Tax Information (check tax bill) Map: 005 Plan: 001 Lot: 001	Deed or Lease Information (check deed or lease) Book: Page: Lease #: B-93-17
Lot size (in acres, or in square feet if less than 1 acre)	Lot Coverage (in square feet)
All Zoning on Property (check the LUPC map) P-FP/D-RS GLS DACSS	Zoning at Development Site P-FP/D-RS
Road Frontage. List the name(s) and frontage(s) (in feet) for any public or private roads, or other rights-of-way adjacent to your lot: Road #1: Frontage ft. Road #2: Frontage ft.	Water Frontage. List the name(s) and frontage(s) (in feet) for any lakes, ponds, rivers, streams, or other waters on or adjacent to your lot: Waterbody #1: WEST GRAND LAKE Frontage ft. Waterbody #2: Frontage ft.
LUPC Approved Subdivision. List the LUPC approved subdivision number: SP _____ and SP Lot #: _____	
If your property is not part of subdivision previously approved the Commission, please continue to Land Division History below. (check your deed or contact the LUPC office that serves your area)	
Land Division History. Using your deed as a starting point, trace the ownership history and configuration changes of your property back 20 years from today. List any division of those lots from which your property originated (use additional sheet of paper if needed).	(example: Amy Adams to Rob Roberts 1/12/1997 10 acres) n/a Okay REB 3-2-16

3. EXISTING STRUCTURES OR USES (Fill in a line for each existing structure)

Previously issued Building Permit number (if applicable) N.F.

Type of structure (dwelling, garage, deck, porch, shed, driveway, parking area, etc.)	Year built	Exterior dimensions (in feet) (LxWxH)	Type of foundation (full basement, slab, post, etc.)	Horizontal Distance (in feet) of structure from nearest:					
				Road	Property line	Lake or pond	River or stream	Wetland	Ocean/Tidal waters
BOAT HOUSE	pre-Com	40'-6" 5/16" X 25'	CRIB	18'		0

- * ~~4.2 HOME OCCUPATIONS: If use of your property includes expanding or starting a home occupation, you must complete Supplement S-1: Questions for Home Occupations. Contact the LUPC office serving your area or download at www.maine.gov/dacf/lupc/. Please note additional fees apply to home occupations, see instructions for the appropriate fees.~~
- ** ~~4.3 CAMPSITES: If use of your property includes a campsite for your personal use (e.g., will not be rented):~~
- a. Will the tents, tent trailer(s), pickup camper(s), recreational vehicle(s), trailer(s) or similar devices be located on the lot for less than 120 days in a calendar year? YES NO
 - b. Will the camper(s), trailer(s), and/or recreational vehicle(s) be registered and road ready? YES NO
 - c. Will the campsite have access to an on-site pressurized water supply (and not a self-contained water tank with pump)? YES NO
 - d. Will the campsite have access to permanent structures other than an outhouse, fireplace, picnic table, or lean-tos? YES NO
- *** ~~4.4 RECONSTRUCTIONS OR NEW ACCESSORY STRUCTURES: If you are constructing a new accessory structure, reconstructing an existing structure, or adding a permanent foundation:~~
- a. If the structure or foundation will not meet the LUPC's minimum setback distances from property lines, roads, water bodies or wetlands, explain what physical limitations (lot size, slope, location of septic system, etc.) prevent the structure or foundation from meeting setbacks: Boathouse
 - b. For reconstructions, has the existing structure been damaged, destroyed or removed from your property? YES NO
 If YES, was the structure in regular active use within a 2-year period preceding the damage, destruction or removal? YES NO
 If YES, provide the date the structure was damaged, destroyed or removed: Portions still existing see pictures of deck.
- **** ~~4.5 DRIVEWAYS: If you are located on a public road:~~
- a. Are you constructing a new driveway or entrance or changing a current driveway in a way that will increase traffic volume, or create a safety or drainage concern regarding a State or State-Aid Highway? YES NO
 If YES, you must submit Exhibit H: Driveway/Entrance Permit. Note: If your property is located along a County or Town/Plantation Road, you should check with that office before submitting this application to see what is required.

5. SUBSURFACE WASTEWATER DISPOSAL (SEPTIC SYSTEM) (Note: Exhibit may be required. See instructions)

5.1 Mark the existing type of system serving the property: None Combined Subsurface System (Tank, leach field)
 Primitive Subsurface Disposal (Privy, graywater - non-pressurized); Common Sewer (Connected to a sewer district)
 Holding Tank Self-Contained Camper or RV Other _____

5.2 Will any expanded, reconstructed, or new structures include new bedrooms or bathrooms; add plumbing, water fixtures, pressurized water, or the ability for human habitation; or otherwise generate additional wastewater? YES NO
 If YES, you may need to submit Exhibit E: Subsurface Wastewater Disposal. (see instructions)

LUPC - DOWNEAST

List of improvement proposed to Boat House;

- 1) Reframe and install windows and man-door where garage door exists at present. (landward side)
- 2) Replace door on south side with newer door
- 3) Prep opening and install overhead door in slip opening (lake side)
- 4) Prep and install for boat lift by moving and installing four support posts
- 5) Reframe interior wall on slip and removing doors and install new windows and covering with board paneling on both sides
- 6) Remove existing wall covering and ceiling on the interior and installing 3/4" board paneling and reinsulating walls and ceiling
- 7) Install new windows on the attic gable ends
- 8) Re-sheath and re-roof the entire roof with asphalt shingles
- 9) Re-build walkway per site plan.

- 10) Build ship's ladder to replace drop ceiling ladder access to attic

- 11) Minimal wiring to meet code.

- 12) Frame interior storage space of approximately 6' x 6'

- 13) Install shelving in interior existing space at the end of the slip

- 14) Replace sidewall shingles only where needed for window and door replacement.

Permitted under: 10.23.C, 3, C, (12)

Normal maintenance and repair or renovation equaling or exceeding \$1,000 in cost in FEMA Zone A..
and

10.11, C, 2, f (decking) replicates portion of prior deck.

GP-3433

6. DEVELOPMENT IN FLOOD PRONE AREAS (Note: Supplement may be required. See instructions.) LUPC - DOWNEAST

- 6.1 Is your proposed activity located within a mapped P-FP (Flood Prone Area Protection) Subdistrict, a mapped FEMA (Federal Emergency Management Agency) flood zone, or an unmapped area prone to flooding?
 - P-FP Subdistrict YES NO
 - FEMA Flood Zone YES NO
 - Unmapped Area Prone to Flooding YES NO

If you answer YES to any of these questions, you must complete Supplement S-4: Development in Flood Prone Areas. Contact the LUPC office serving your area or download at www.maine.gov/dacf/lupc/application_forms/index.shtml.

7. VEGETATIVE CLEARING (Note: Exhibit may be required. See instructions.)

- 7.1 What is the total amount of proposed vegetative clearing not including the driveway and the footprint of proposed structures? NA _____ sq. ft

If you answer NA (not applicable) for 7.1 go to Section 8.

- 7.2 Will the total amount of existing and proposed vegetative clearing within 250 feet of any lakes or rivers be less than 10,000 square feet? YES NO NA Total: _____ sq. ft.
- 7.3 Will the proposed clearing be located at least 50 feet from the right-of-way or similar boundary of all public roadways? YES NO NA How Close? _____ feet
- 7.4 Will the proposed clearing be located at least 75 feet from the normal high water mark of any body of standing water less than 10 acres in size, any tidal water, or flowing water draining less than 50 square miles? YES NO NA How Close? _____ feet
- 7.5 Will the proposed clearing be located at least 100 feet from the normal high water mark of the lake or river? YES NO NA How Close? _____ feet

- 7.6 If you answer NO to any of these questions, please explain why your vegetative clearing proposal is necessary and how it will not create an undue adverse impact on the resources and uses in the area: _____

- 7.7 Buffering in Prospectively Zoned Areas. Is your property located in one of the following Prospectively Zoned Plantations or Townships? YES NO

Adamstown Twp. Dallas Plt. Lincoln Plt. Magalloway Plt.
 Rangeley Plt. Richardsontown Twp. Sandy River Plt. Townships C, D, and E.

If YES, please complete the following table regarding the width of the vegetative buffers at the narrowest point between the existing and proposed structures and the nearest applicable road, property line, and subdistrict setbacks as applicable:

Standard Minimum Required:	Width of Vegetated Buffers			
	Road	Side Property Line	Rear Property Line	Subdistrict Boundary (If D-ES or D-CI)
25 feet in D-GN, D-GN2, D-GN3 50 feet in D-RS, D-RS2, D-RS3 75 feet in D-ES and D-CI		15 feet	15 feet	50 feet Buffer to other Subdistricts
This property:	_____ feet	_____ feet	_____ feet	_____ feet

Note: You may be required to submit Exhibit F: Documentation for Exceptions to Buffering Requirements. (See instructions)

8. SOIL DISTURBANCE, FILLING AND GRADING AND EROSION CONTROL (Note: Exhibit may be required. See instructions.)

- 8.1 Will your project involve disturbing soil or filling and grading? YES NO

If YES, please answer the following questions. If NO, continue to Section 9.

- 8.2 What is the total area of proposed soil disturbance or filling and grading? sq. ft.
- 8.3 What is the total square feet of soil disturbance or filling and grading within 250 feet of a body of standing water, flowing water, or wetland? sq. ft.
- 8.4 Will all soil disturbance or filling and grading be done when the ground is frozen or saturated? YES NO
- 8.5 Will any fill used be free of hazardous or toxic materials, trash and rubbish? YES NO
- 8.6 How and when will disturbed areas be seeded or stabilized at the end of the construction season and at the completion of the project? _____

Question 8 continues onto the next page...

GP 3433

LUPC - DOWNEAST

8. SOIL DISTURBANCE, FILLING AND GRADING AND EROSION CONTROL (continued from previous page)

- 8.7 What will you do (during site preparation, construction, cleanup, and post-construction) to stabilize disturbed soil and prevent sediment from entering water, wetlands, natural drainage systems, catch basins, culverts or adjacent properties?

- 8.8 What is the average slope of land between the area to be disturbed and the nearest waterbody or wetland? % slope
- 8.9 What will the sustained slope of land be between the area to be disturbed and the nearest waterbody or wetland?..... % slope
- 8.10 Please explain how your project will not create an undue adverse impact on the resources and uses in the area. Include information about erosion control devices and other plans to stabilize the site: _____

Be sure to include the following information on your site plans (Exhibits D1 and D2): size and location of the area to be disturbed, and the proximity of the area to be disturbed to water bodies, flowing waters, and wetlands.

9. LAND AND WETLAND ALTERATION (Note: Exhibit or Supplement may be required. See instructions.)

- 9.1 Will your proposal alter a total of one acre or more of land area, whether upland or wetland?..... YES NO
If YES, you must also complete Exhibit G: Erosion and Sedimentation Control Plan and Supplement S-3: Requirements for Wetland Alterations.
- 9.2 Will your proposal alter any amount of land that is mapped P-WL Subdistrict, or any ground below the normal high water mark of any lake, pond, river, stream, or intertidal area?..... YES NO
If YES, you must also complete Supplement S-3: Requirements for Wetland Alterations.

10. APPLICANT SIGNATURE (REQUIRED) AND AGENT AUTHORIZATION (OPTIONAL)

Agent Name ROBERT D. POOL	Daytime Phone 207 479-3120	FAX
Mailing Address 441 YARNUMVILLE RD.	Email bob@poolinc.com	
Town BROOKVILLE, ME 04617	State ME	Zip Code 04617

I have personally examined and am familiar with the information submitted in this application, including the accompanying exhibits and supplements, and to the best of my knowledge and belief, this application is complete with all necessary exhibits. I understand that if the application is incomplete or without any required exhibits that it will result in delays in processing my permit decision. The information in this application is a true and adequate narrative and depiction of what currently exists on and what is proposed at the property. I certify that I will give a copy of this permit and associated conditions to any contractors working on my project. I understand that I am ultimately responsible for complying with all applicable regulations and with all conditions and limitations of any permits issued to me by the LUPC. If there is an Agent listed above, I hereby authorize that individual or business to act as my legal agent in all matters relating to this permit application. I understand that while there is a required Statewide Maine Uniform Building and Energy Code (MUBEC) administered by the Maine Department of Public Safety, Bureau of Building Codes & Standards, the Commission's review is limited only to land use issues and the Commission does not make any findings related to the MUBEC, nor do the LUPC staff inspect buildings or enforce any provisions of that Code.

Please check one of the boxes below: (see "Accessing the Project Site for Site Evaluation and Inspection" just prior to the application form)

- I authorize staff of the Land Use Planning Commission to access the project site as necessary at any reasonable hour for the purpose of evaluating the site to verify the application materials I have submitted, and for the purpose of inspecting for compliance with statutory and regulatory requirements, and the terms and conditions of my permit.
- I request that staff of the Land Use Planning Commission make reasonable efforts to contact me in advance to obtain my permission to fully access the project site for purposes of any necessary site evaluation and compliance inspection.

All appropriate persons listed on the deed, lease or sales contract must sign below.

STATE OF MAINE
DEPARTMENT OF AGRICULTURE, CONSERVATION & FORESTRY
LAND USE PLANNING COMMISSION
22 STATE HOUSE STATION
AUGUSTA, MAINE 04333-0022

STANDARD CONDITIONS OF APPROVAL
FOR ALL SHORELAND ALTERATION PERMITS

1. The permit certificate must be posted in a visible location on your property during performance of the activities approved by this permit.
2. This permit is dependent upon and limited to the proposal as set forth in the application and supporting documents, except as modified by the Commission in granting this permit. Any variation therefrom is subject to the prior review and approval of the Maine Land Use Planning Commission. Any variation from the application or the conditions of approval undertaken without approval of the Commission constitutes a violation of Land Use Planning Commission law.
3. ~~Construction activities authorized in this permit must be substantially started within two (2) years of the effective date of this permit and substantially completed within five (5) years of the effective date of this permit. If such construction activities are not started and completed within this time limitation, this permit shall lapse and no activities shall then occur unless and until a new permit has been granted by the Commission.~~
4. The recipient of this permit ("permittee") shall secure and comply with all applicable licenses, permits, and authorizations of all federal, state and local agencies including, but not limited to, permits required under the Natural Resources Protection Act administered by the Maine Department of Environmental Protection.
5. The scenic character and healthful condition of the area covered under this permit must be maintained. The area must be kept free of litter, trash, junk cars and other vehicles, and any other materials that may constitute a hazardous or nuisance condition.
6. All areas of exposed mineral soil above the normal high water line or wetland boundary shall be promptly seeded and mulched so as to avoid soil erosion and lake sedimentation. Rocks and trees which are holding the shoreline and preventing erosion shall not be removed.
7. Unless otherwise specified in this permit, all work must be conducted at periods of low water when the water level is lower than the work area.
8. Unless otherwise specified in this permit, no mechanical equipment, machinery or vehicles shall be operated below the normal high water line or wetland boundary.
9. If pressure treated wood is to be used, such wood must be allowed to cure, away from the waterbody or wetland, for a minimum of three weeks prior to installation.
10. Once the activity is completed, the permittee shall notify the Commission that all requirements and conditions of approval have been met. The permittee shall submit all information requested by the Commission demonstrating compliance with the terms of the application and the conditions of approval. Following notification of completion, the Commission's staff may arrange and conduct a compliance inspection.

Administrative Policy Revised 04/04

APPENDIX G DESIGNATED AREAS OF CULTURAL OR SPECIAL SIGNIFICANCE (DACSS)

1. **Designated Area of Cultural or Special Significance (DACSS).** Areas of cultural or special significance may be designated by the Commission to facilitate expansion, reconstruction or replacement, or relocation of structures that provide significant public benefits to the surrounding community. A DACSS is intended to include discrete geographic areas with significant cultural or other special features. Once included in a DACSS, a structure may be expanded in accordance with Section 10.11,C,1,c, reconstructed or replaced in accordance with Section 10.11,C,2,f, and relocated in accordance with Section 10.11,C,3, of the Commission’s rules. Designation of an area as a DACSS does not preclude expansion, reconstruction or replacement, or relocation of legally existing non-conforming structures in accordance with other applicable provisions of Section 10.11.
 - a. **Designation Criteria.** The Commission shall designate an area of cultural or special significance upon finding that a proposed area meets the following criteria:
 - (1) The proposed area is an iconic location containing features that convey a sense of time or place to residents or visitors;
 - (2) The proposed area is a geographically definable area or neighborhood composed of a finite group of related features that have a special character, historical interest, or aesthetic value; and
 - (3) The proposed area provides a significant public benefit, per Section 1,b.
 - b. **Contributing Factors.** When evaluating whether an area proposed for designation provides a significant public benefit, as required by Appendix G, Section 1,c the Commission shall consider the factors listed below. The Commission may find an area provides a significant public benefit even if the area does not include features satisfying all of the factors set forth in (1) through (4) below, provided the evidence offered for a particular factor or subset of factors is compelling. In applying these factors, the Commission may consider, among other evidence, documentation such as published books, magazines, academic writings, or newspaper articles; other historic records identifying the value of the feature or area; and visual depictions such as postcards, images or paintings. The Commission also may receive testimony by persons with special knowledge about applicable factors.
 - (1) Cultural: Buildings, improvements or other features that exemplify or reflect a group of people linked together by shared values, traditional uses, beliefs, and historical associations;
 - (2) Historic: Represents a distinct historical period, type, style, region, or way of life; is the site of an important historical event, or is associated with historic events that have made a meaningful contribution to the nation, state, or community; or represents a specific business or use, which either once was common but now is rare, or continues to have historical value as it currently operates.
 - (3) Architectural or Engineering: Exemplifies a particular architectural style or way of life, construction materials or engineering methods used to build features, or

embodies elements of outstanding attention to architectural or engineering design, detail, material, or craftsmanship.

- (4) **Neighborhood or Geographic Setting:** The proposed area is in a unique location, or represents an established and familiar visual feature of the community that draws residents and visitors, or structures or features within the designated area include singular physical characteristics.

- c. Procedural Requirements.** In accordance with Chapter 4 of the Commission's Rules, Rules of Practice, Section 4.06, any person may petition the Commission for designation of an area as a DACSS. Petitions must be in writing and identify the area proposed for designation, specify the purpose of the proposed designation, and explain how the designation conforms with the criteria set forth in Appendix G, Section 1,a. In addition to notification requirements described in Section 4.06(5) upon receiving a petition to designate a proposed area the Commission shall notify: (i) property owners within the area proposed as a DACSS; (ii) the municipality or plantation where the designated area is proposed; (iii) the county if located in an unorganized township; (iv) appropriate state and federal agencies, to be determined by the Commission; and (v) tribal governments. Upon designation of an area as a DACSS, a description of the designated area, its purpose, and the facts substantiating the Commission's finding that the applicant satisfied the criteria in Appendix G, Section 1,a shall be listed in Appendix G, Section 2 of this chapter.
- d. Removal of Designation.** Upon petition in accordance with Chapter 4 of the Commission's Rules, Rules of Practice, Section 4.06, the Commission may remove a designation of a DACSS when the Commission finds that the DACSS no longer meets the purpose of the DACSS listed in Appendix G, Section 2, of this chapter or no longer provides a significant public benefit based on the factors in Appendix G, Section 1,b,(1) through (4).

- 2. Designated Areas.** The following areas have been designated as a DACSS in accordance with the procedure described in Appendix G, Section 1.

- a. Grand Lake Stream Plantation Boathouses and Waterfront.** Grand Lake Stream Plantation is a place where fishing, boating, access to water, and a strong connection to the past are key components of its identity and culture and very important to its residents, as well as the large number of visitors that come to the community each year. It is a place to which people from all over the world travel for its culture, its beauty, and importantly, the "old-time feeling" that makes it special.

- (1) **Designation Purpose.** The purpose of listing the Grand Lake Stream shorefront as a designated area is to provide the community an opportunity to sustain the boathouses located on the iconic southern shoreline of West Grand Lake that symbolize key components of its culture, and history, and that convey a tranquil "old-time feeling" for the people that live in and visit the community, and contribute to Grand Lake Stream Plantation's quality of life and sense of place.
- (2) **Geographic Boundaries.** The designated area includes all structures within its boundaries that are legally existing as of the effective date of this rule amendment. The designated area specifically includes the two public boat launches and excludes the man-made dam and any portion thereof, and is composed of the following two sub-areas:
- (a) **Western sub-area.** Extends northerly and westerly from the intersection of the driveway for the public boat launch and centerline of Shaw Road, along the

centerline of Shaw Road, to the point where Shaw Road crosses the inlet into Hatchery Cove; and extends on the lake side of the road, to the extent necessary to include all legally existing structures.

- (b) Eastern sub-area. Extends southerly from the end of Canal Street, along the centerline of Canal Street, to the center of the intersection of Canal Street and the driveway leading to the dam; and extends on the lake side of the road, to the extent necessary to include all legally existing structures.
- (3) Facts Substantiating Designation of Grand Lake Stream Plantation Boathouses and Waterfront as a Designated Area of Cultural or Special Significance.
- (a) The historic boat houses that have existed along the shoreline at the southern end of West Grand Lake since the early 1900's are part of what makes the area described in Appendix G, Section 2,a iconic. For residents and visitors, the boathouses reflect the community, its culture, and their shared value of traditional uses and an "old-time feeling."
 - (b) The boathouses in Hatchery Cove are representative of the Maine Guiding Tradition and a specific way of life. They originally sheltered steamboats used to transport sportsmen and other visitors to remote lodges located around the lake. They have since been used to store boats for visiting sportsmen, including the famous Grand Laker Canoe, which was designed and built locally for conditions commonly found on the lake. Additionally, the boathouses have been used by property and business owners to supply camps and lodges located around the lake, and by the Maine Forest Service as a base for firefighting operations. Although privately owned and used, the community associates the boathouses with their past. One resident commented that all good stories start with "we were down at the boathouses"
 - (c) The area described in Appendix G, Section 2,a,(1) is a unique geographic location and represents an established and familiar visual feature of the community that draws residents and visitors, and contributes to a high quality of life for residents and economic activity from tourism. Residents talk of children in the area, against the wishes of their parents, jumping from the boathouses into the lake. Fishermen visit the area to check the flow in the river and to launch their boats on the lake. Hikers, ATV riders, paddlers and snowmobilers use the area to access the many nearby recreational trails. Families and school groups come to swim and picnic. The community holds events at the waterfront such as fireworks displays and activities during the annual Grand Lake Stream Folk Arts Festival. Photographers have a single place where they can capture many of the important elements that contribute to the culture and sense of place that locals and visitors experience in the community. Residents describe this area as Grand Lake Stream's "working waterfront," and as the "core of the town."
