About the Local Wood Initiative

About Kennebec Land Trust's Local Wood initiative: Working with our conservation partners, we aim to advance forest-based local economies and support the long-term conservation and sustainability of Maine's woodlands. We share a commitment to: sustainable forestry, land stewardship, strong and resilient local economies, conservation of both working woodlands and ecological reserves, reduced energy consumption and reduced transportation costs based on local products, and providing support to landowners, loggers, processors, manufacturers, and consumers. Our partners:

Wildlands, Woodlands, and Farmlands: The Place of 'Local' Wood and Food in New England's Future - Brian Donahue - Associate Professor of American Environmental Studies, Brandeis University; Environmental Historian, Harvard Forest

Panels and Workshops:

Maine Success Stories - Businesses that thrive from our forests in the logging, processing, fuel, home building and fine woodworking industries

Challenges and Opportunities - Small group discussions with business leaders, policymakers, landowners and researchers on how best to improve and grow the local wood economy

Networking and B2B Opportunities:

Business Expo - Day-long showcase for Maine businesses that work in and with those in the forest and forest products industry

Networking Reception

November 15, 2015, 8:00 am-1:00 pm

Success Story Open Houses - Voluntary site visits to highlighted businesses from the conference across the region

Sponsorship Opportunities

Join us in bolstering Maine's Local Wood Economy and showcase your business in front of hundreds of engaged business leaders and consumers.

Sponsorship includes (depending on level):

- Advertisement in Event Program
- Expo Booth Space
- Conference Registration(s)
- Company Logo on Signage and Website
- Founding Sponsor of Statewide Local Wood Guide

Sponsorships begin at just \$275. Additional special day-of-event opportunities available. Please visit our website or ask for details.

We believe that with your involvement, the local wood movement in Maine can be as robust as the local food movement.
