

LEGEND

Bank Stability Index

-  Actively Accreting
-  Stable
-  Moderately Stable
-  Moderately Eroding
-  Actively Eroding

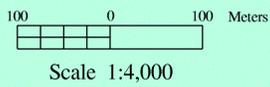

Modern Geologic Environments

-  Marsh
-  Floodplain
-  Upland
-  Beach
-  Water

Anthropogenic Modifications

-  Artificial Fill
-  Retaining Wall
-  Riprap
-  Stabilization Project Site

- Notes:
1. Boundaries of zones are accurate to within five (5) meters. Area of fill estimated from changes observed in historical aerial photographs.
 2. Base map is from the U.S.G.S. 1983 7.5-minute Naples quadrangle.
 3. Mapped in July, 1996.
