

PESTICIDE NOTIFICATION

Your Rights & Responsibilities

Pesticides are used every day in Maine for control of insects, weeds, and other pests, to protect our food supply, ourselves, and our homes and gardens.

- If you want to know in advance what pesticides are used and when, **you have the right to know, but it's your responsibility to ask your neighbor first.**
- Everyone has the right to use pesticides, **but with that right comes the responsibility to abide by the law and notify people who ask.**

For more information, go to thinkfirstspraylast.org, or call the Maine Board of Pesticides Control at 207-287-2731.

The Maine Board of Pesticides Control, an administrative unit of the Maine Department of Agriculture, is the lead state agency for pesticide regulation, where policy decisions are made by a seven-member, public board.
