

Long Island

Significant Wildlife Habitat - Tidal Waterfowl and Wading Bird Habitats Only

--- Town lines
Tidal waterfowl and wading bird habitat

Tidal waterfowl and wading bird habitats include no buffer, though a permit is required for activities within 75 feet of any coastal wetland.

This map represents significant wildlife habitat that is regulated by the Natural Resources Protection Act. All information on this map should be field checked by qualified individuals for a determination regarding whether your property is affected.

Background hydrologic, topographic, and political features are accurate to +/- 40 feet and are based on USGS topographic maps.

Map scale:

1:37,552

when printed on
8.5 x 11 paper
