**Departmental
Findings of Fact and Order
Part 70 Air Emission License
Amendment #1**

FINDINGS OF FACT

After review of the Part 70 License amendment application, staff investigation reports and other documents in the applicant's file in the Bureau of Air Quality, pursuant to 38 Maine Revised Statutes Annotated (M.R.S.A.), §344 and §590, the Maine Department of Environmental Protection (Department) finds the following facts:

I. REGISTRATION

A. Introduction

FACILITY	Fraser Timber LLC
LICENSE TYPE	Part 70 Section 502(b)(10) Change
NAICS CODES	321113, 321999
NATURE OF BUSINESS	Lumber Manufacturer
FACILITY LOCATION	Rt 11, Masardis, Maine

Fraser Timber LLC (Fraser) is a lumber manufacturing facility consisting of two wood-fired boilers and six drying kilns. Fraser wishes to add cardboard as a permissible fuel for Boilers #1 and #3. The cardboard burned will be limited to that generated on-site from the purchase of goods and supplies.

B. Emission Equipment

The following emission units are addressed by this Part 70 License:

Boilers

Equipment	Maximum Heat Input Capacity (MMBtu/hr)	Max. Firing Rate (ton/hr)	Fuel Type	Manf. Date	Install. Date	Stack #
Boiler #1	27.0	3.0	wood waste	1979	1979	1
Boiler #3	12.2	1.4	wood waste	1980	1993	2

C. Application Classification

The application for Fraser does not include the licensing of increased emissions or the installation of new or modified equipment. The request to add cardboard as a permissible fuel for Boilers #1 and #3 does not include changes that would violate applicable requirements or contravene federally enforceable permit terms and conditions that are monitoring (including test methods), recordkeeping, reporting, or compliance certification requirements. Therefore, the license application is considered to be a Part 70 Section 502 (b)(10) Change issued under *Part 70 Air Emission License Regulations*, 06-096 Code of Maine Rules (CMR) 140 (as amended).

ORDER

Based on the above Findings and subject to conditions listed below, the Department concludes that emissions from this source:

- will receive Best Practical Treatment;
- will not violate applicable emissions standards; and
- will not violate applicable ambient air quality standards in conjunction with emissions from other sources.

The Department hereby grants the Part 70 License A-165-70-E-A pursuant to 06-096 CMR 140 and the preconstruction permitting requirements of 06-096 CMR 115 and subject to the conditions found in Air Emission License A-165-70-D-R/A and in the following conditions.

Federally enforceable conditions in this Part 70 license must be changed pursuant to the applicable requirements in 06-096 CMR 115 for making such changes and pursuant to the applicable requirements in 06-096 CMR 140.

For each specific condition which is state enforceable only, state-only enforceability is designated with the following statement: **Enforceable by State-only.**

Severability. The invalidity or unenforceability of any provision, or part thereof, of this License shall not affect the remainder of the provision or any other provisions. This License shall be construed and enforced in all respects as if such invalid or unenforceable provision or part thereof had been omitted.

Departmental
Findings of Fact and Order
Part 70 Air Emission License
Amendment #1

The following shall replace Specific Condition (14)(A) of Air Emission License A-165-70-D-R/A.

(14) **Boilers #1 and #3**

A. Allowable Fuels

Boilers #1 and #3 are licensed to fire wood waste, petroleum soaked waste (oily rags, shop wipes, absorbent pads, oil/kerosene soaked sawdust, etc.) generated on-site, and cardboard generated on-site from the receipt of goods and supplies. [06-096 CMR 140, BPT]

DONE AND DATED IN AUGUSTA, MAINE THIS 20 DAY OF June, 2014.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

BY: Maureen Allen Robert Cone for
PATRICIA W. AHO, COMMISSIONER

The term of this amendment shall be concurrent with the term of Air Emission License A-165-70-D-R/A.
