RE: MRC and Fiberight pending application DEP# S-022458-WK-A-N

Dear Ms. Churchill:

Please accept this letter of support for the pending application to construct a solid waste processing facility in Hampden.

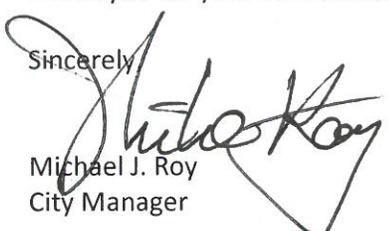

The City of Waterville is completely supportive of the Municipal Review Committee's (MRC) work to develop an MSW processing facility to service Maine towns and cities.

We believe that the Fiberight proposal is a viable alternative to the current options for MSW disposal. We also believe that Maine communities should continue to work together to find an affordable, environmentally sound, long-term solution to our disposal needs.

We ask that the Department approve this application to allow us to continue with this most important work.

Thank you for your consideration.

Sincerely,

Michael J. Roy
City Manager
