Subject: Non-response by CES/Fiberight/MRC to Air Emissions Permit Appl.
Attachments: Air Permits April 8th CES -FINALResp. 23.pdf

Importance: High

To Ms. Churchill and Ms. Lynn Muzzey,

Attached, please find my latest inquiry into the Fiberight's Air Permit Application for A "Minor Source" and the clear "Non-Response" by CES, Inc. in their April 8th, 2016 correspondence.

While the Maine DEP requested the applicant respond to my March 23, 2016 technical analysis, none has been received or forwarded to my attention. I am left to conclude, after nearly a full month that my request for clarification and that of the DEP has been ignored.

Should you receive any relevant correspondence from the applicants, please forward it to me ASAP.
