MEMORANDUM

To: Interested Parties
From: David Wright, Director Division of Remediation
Date: April 26, 2016
RE: Changes to the DEP's Hazardous Waste Closure & Corrective Action Program

Effective April 4, the RCRA Corrective Action group merged into the Federal Sites / Superfund Unit under the leadership of Chris Swain. We are in the process of hiring another project manager into that unit to help fill the void left by Stacy Ladner's transfer to the Petroleum Management Unit. The new PM will work on Hazardous Waste and Federal Facility sites. Attached is the revised DEP organization chart showing this change.

I want to thank everyone for their patience and positive attitude as we move through this change. While I'll miss Stacy's institutional knowledge, I also look forward to hearing your ideas on how to best return contaminated sites back to productive use, while protecting public health and the environment.
