**Subject:** OPPOSED MINING RULES  
**Date:** Wednesday, September 14, 2016 8:24:29 AM

---

To whom it may concern,

I am extremely disgusted by the weak mining laws in Maine and the flexibility of what should've been solid. Here are some reasons why I'm disgusted and call for change.

- The amount of contamination allowed into the ground water.
- The acid mine drainage that will occur from the mining that is being allowed in this state.
- It would allow mining all over Maines Public Reserve Lands
- It would allow tailings impoundments and flood hazard areas.

Please vote these rules down.

Sincerely,

Concerned Citizen.
