Subject: Removal of the State of Maine from the Ozone Transport Region

Dear Jeffrey Crawford,

I am requesting that the state of Maine withdraw its petition to the United States Environmental Protection Agency for the removal of certain areas of the State of Maine from the Ozone Transport Region.

My main concern is that, regardless of how this may affect us locally, the example we set for our partners, the other states in this agreement, may at the least encourage them to change their rules also but at the most step away from our agreement with them concerning the oxygen transmission rate. This would bring us right back to the miserable conditions that existed before this agreement. Maine cannot physically change its location, so would continue to act as a tailpipe for all these pollutants carried on prevailing winds.

Please withdraw this petition.

Yours truly,

Joan Britton

Portland, ME 04102
