

Universal Waste/E-Waste Training Announcement Transfer Station Operators Training Program

The Department is pleased to announce the presentation of elective training session number 2, **Universal Waste**, for municipal transfer station operators, town managers, school personnel and others interested. **This training session will include a focus on procedures for participating in Maine's new shared responsibility system for the recycling of household televisions and computer monitors, including storage, tracking and reporting.** The training will take approximately 2.5 hours. Those who will be managing household televisions and computer monitors at municipal solid waste facilities, recycling centers or schools are encouraged to attend this training session.

This training covers the following topics:

- Universal waste defined
- TV & computer monitor management
- Removing mercury from appliances
- Managing UW at your facility
- Paperwork requirements
- Dealing with breakage and spills

There is no fee for this workshop. Please register to join us at one of the following location:

Milford April 24 Milford Town Office 10:00 – 12:30

Please fill out and return the registration form to the Maine DEP (Transfer Station Training, 17 State House Station, Augusta, ME 04333) **ASAP, but no later than one week before the training session.** If you can not attend the training session for which you register please contact Sandy Moody at 207-287-7751 or fax to 207-287-2660.

(Please detach and return- Keep top portion for marking your calendar- No confirmation will be returned to you)
