

July 11, 2006

Dear Hazardous Waste and Waste Oil Transporter:

On April 6, 2006 the Maine legislature amended 38 MRSA 1319-I, changing the fees collected by the Department of Environmental Protection for the transportation and disposal of hazardous waste and waste oil in Maine.

These fees have not been adjusted by the State of Maine since their inception in 1987. The new fees are described in the attached law and take effect on August 23, 2006. At that time hazardous waste and waste oil transporters will be required to start using the new reporting forms, also attached to this letter.

If you should need further information please do not hesitate to contact Cherrie Plummer or John Dunlap at 207-287-2651.

Sincerely,

John M. Dunlap, Hazardous Waste and Waste oil Transporters Program
Division of Oil and Hazardous Waste Facilities Regulation
Bureau of Remediation and Waste Management
