# Pennamaquan River/Sipps Bay

<b>Site, Strategy &amp; Chart #</b>	D-29	D-29-2	13394
<b>Port Region</b>	Eastport		
<b>Latitude Longitude</b>	44° 55.188' N	67° 6.618' W	
<b>Water Depth Range</b>	0 - 12	feet	
<b>Max Current (knots)</b>	<i>Flood</i> 2 knots +	<i>Ebb</i>	<i>Source</i> Estimated
<b>Nearest Boat Ramp</b>	Pennamaquan River boat launch, Hersey Neck		
<b>Strategy Type</b>	Exclusion		
<b>Type of Boom</b>	Harbor		
<b>Length of Boom</b>	5000	feet <i>Unless otherwise indicated, the boom length given is straight line distance as measured on the map. Actual length required will vary with conditions, and increase with current.</i>	
<b>Strategy Implementation</b>	If current allows, deploy 1,500 feet of boom from boat launch on Hersey Neck to Kelly Pt. Deploy seven 500' sections of harbor boom parallel & overlapping from Clement Point to northern point of land that forms Red Cove. Direct oil into Red Cove for recovery.		
<b>Site Access</b>	Pennamaquan River boat launch		
<b>Staging Areas</b>	Pennamaquan River boat launch		
<b>Collection Points</b>	Red Cove, Pennamaquan River boat launch		
<b>Environmental Concerns</b>	Elver runs, shellfish, shorebirds, eelgrass and bald eagle nesting sites in both upper East Bay and Pennamaquan River.		
<b>EVI Map #</b>	95		
<b>Shoreline Types</b>	Rocky shores		
<b>Other Comments</b>	Current very strong in this area may be difficult for strategy to be effective.
