

## DDPC Immunization Requirements

### MMR (Measles, Mumps Rubella) **Mandatory**

- If born **before** January 1, 1957 no proof of immunization is needed.
- If born **after** January 1, 1957 you must show proof of **2** MMR immunizations

**OR**

- Provide proof of positive MMR titer (blood test) indicating immunity.

### Varicella (Chicken Pox) **Mandatory**

- Evidence of **2** varicella immunizations

**OR**

- Positive varicella titer indicating immunity

**OR**

- Document signed by employee stating “to the best of their knowledge”, the month/year they were infected with Chicken Pox.

### Tuberculin Skin Test (also known as TST or PPD) **Mandatory**

- Documentation of a “two-step” TST within the past 12 months
- Documentation of a negative TST within the past 12 months followed by a 1-step TST at DDPC prior to orientation (**for new employees/volunteers only**. Students are responsible for meeting healthcare immunization requirements prior to clinicals.)
- **New employees/volunteers** who have no TST history within past 12 months must contact DDPC Employee Health to schedule a 2-step TST at least 2 weeks prior to start date.

**OR**

- If past TST test was positive, provide documentation of the positive TB test and proof of a follow-up negative chest X-ray.

### Hepatitis B **Recommended**

- If you have received the 3-part Hepatitis B immunization series, please provide documentation of the series.
- The 3-part Hepatitis B immunization series is highly recommended (OSHA). It is offered to all employees/volunteers at risk of exposure to blood borne pathogens at no cost.
- If the Hepatitis B series is declined, DDPC requires the employee/volunteer to sign a Hepatitis B Declination Form.
- The Hepatitis B series will be available at no cost to all employees/volunteers who initially decline the Hepatitis B series.

- ❖ **ALL STUDENTS MUST MEET IMMUNIZATION REQUIREMENTS PRIOR TO STARTING CLINICAL ASSIGNMENTS.**
- ❖ **STUDENTS MUST PROVIDE IMMUNIZATION DOCUMENTATION.**
