Subject: Resolve Chapter 140 Report

Dear Senator Martin, Representative Koffman, and Members of the Committee:

Please find attached multiple copies of a report titled Integrating Public Water Supply Protection into the State of Maine's Vision. The Maine Center for Disease Control and Prevention's Drinking Water Program has completed the report pursuant to the requirements laid out in Resolve Chapter 140. We are prepared to brief the committee and answer questions as necessary.

The Public Process has confirmed that we have both the need and the opportunity for state and local government to improve public health protection by protecting drinking water supplies. We look forward to discussing these with the committee.

Sincerely,

Dora A. Mills

Dora A. Mills, M.D., MPH
Director, Maine Center for Disease Control and Prevention
