

5/26 Agenda

### **Outstanding Work:**

Eric needs to 2x check the NOAA data and look into inserting a map.

Eric needs to 2x check the maps and make any needed modifications (including the bio maps).

Brian will make modifications to point 4 of the intro and send to Eric

Sharee/Brian will make modifications to the conclusion of the advisory chapter and will send to Eric

Need Adult advice from Elaine Krueger

Gary – check De write up – I think done and ok, Eric will check.

### **Toxicology Chapter**

Issues?

Section VII. Here (I think I vote so) or conclusions section of the whole doc? Maybe rename “options for ...?”

Insert a SHORT conclusions section? (Section VI almost supplies it...but I think it really is different.

Insert a recommendations for further work section? (e.g., do a BMD analysis.)

can we assume that when units are ng/g, they are not ng/g lipid? (sometimes specified, sometimes not).

Page 18 – 2<sup>nd</sup> paragraph, last line – discussion of coplanars – rephrase?

Page 19, 2<sup>nd</sup> paragraph- - 1<sup>st</sup> line – is it possible/worthwhile to insert these graphs? (To ease the “ad hoc divination” by the reader?

Minor Editorial Comments –

Page 18 – 2<sup>nd</sup> paragraph, last line – discussion of coplanars – rephrase?

Add definitions to bottom of Table 1 for NBAS, WISC-R, K-ABC, etc?

Add a few definitions to the bottom of Table 3 – esp BF and FF

add citation for NHANES data (address to website).

### **Comments on Other Changes to Document –**

Methodology Section
