

| Program | Events Denied | Excluded Events |
|---|--|---|
| Maine (all payers) | Mistakes or Preventable Adverse Events | Coincides with NQF's 28 Serious Reportable Events. |
| Maryland Health Services Cost Review Commission (all payers) | Maryland Hospital Acquired Conditions (MHAC) | <p>50 MHACs derived from a list of 64 Potentially Preventable Complications (PPC) developed by 3M Health Information Systems. PPC are complications that are unlikely to be a consequence of the natural progression of an underlying illness. PPC are not present when the patient is first admitted and are associated with the care during the hospitalization:</p> <ul style="list-style-type: none"> • Stroke & Intracranial Hemorrhage • Extreme CNS Complications • Acute Pulmonary Edema and Respiratory Failure without Ventilation • Acute Pulmonary Edema and Respiratory Failure with Ventilation • Pneumonia & Other Lung Infections • Aspiration Pneumonia • Pulmonary Embolism • Other Pulmonary Complications • Shock • Congestive Heart Failure • Acute Myocardial Infarction • Cardiac Arrhythmias & Conduction Disturbances • Other Cardiac Complications • Ventricular Fibrillation/Cardiac Arrest • Peripheral Vascular Complications Except Venous Thrombosis • Venous Thrombosis • Major Gastrointestinal Complications without Transfusion or Significant Bleeding • Major Gastrointestinal Complications with Transfusion or Significant Bleeding • Major Liver Complications • Other Major Gastrointestinal Complications without Transfusion or Significant Bleeding • Urinary Tract Infection • GU Complications Except UTI • Renal Failure without Dialysis • Renal Failure with Dialysis • Post-Hemorrhagic & Other Acute Anemia with Transfusion • In-Hospital • Trauma and Fractures <ul style="list-style-type: none"> • Poisonings Except from Anesthesia • Decubitus Ulcer • Transfusion Incompatibility Reaction • Cellulitis • Moderate Infectious • Septicemia & Severe Infections • Acute Mental Health Changes • Post-Operative Infection & Deep Wound Disruption without Procedure • Post-Operative Infection & Deep Wound Disruption with Procedure • Reopening Surgical Site • Post-Operative Hemorrhage & Hematoma without Hemorrhage Control Procedure or I&D Procedure • Post-Operative Hemorrhage & Hematoma with Hemorrhage Control Procedure or I&D Procedure • Accidental Puncture/Laceration During Invasive Procedure • Other Surgical Complication – Mod • Post-procedure Foreign Bodies • Encephalopathy • Other Complications of Medical Care • Iatrogenic Pneumothrax • mechanical Complication of Device, Implant & Graft • Gastrointestinal Ostomy Complications • Inflammation & Other Complications of Devices, Implants or Grafts Except Vascular Infection • Infection, Inflammation & Clotting Complications of Peripheral Vascular Catheters & Infusion • Infections due to Central Venous Catheters • Obstetrical Hemorrhage with Transfusion |
