Part II - Community Building Activities

Lincoln County Healthcare, Inc. and its subsidiary hospital organizations, Miles Memorial Hospital and St. Andrews Hospital, partner with various community groups such as the Healthy Lincoln County, A Healthy Maine Partnership and the Lincoln County Abuse Task Force to improve and protect the health of its community members. LCH participates in the community disaster training held on a regular basis throughout the county.

Part III, Line 4 - Bad Debt Explanation

From the LCH Audited Financial Statements: Charity Care and Bad Debts: MMH and SAH (the Hospitals) accept all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to certain established policies of the Hospitals. Essentially, these policies define charity care as those services for which limited or no payment is anticipated. In assessing a patient's ability to pay, the Hospitals utilize generally recognized poverty income levels. Charity Care is measured based on the Hospitals' established rates. The Hospitals utilize annual federal guidelines and adjust accounts for those whose income is 225% of the poverty level taking family size into consideration. The costs and expenses incurred in providing these services are included in operating expenses. Revenue for services rendered to individuals from who payment is expected and ultimately not received is written off and included as part of the allowance for bad debts. The costing methodology used in determining the amounts reported on Part III, Line 2 and 3 follow the Worksheets provided in the Schedule H Instructions and utilizes costs to charge information derived directly off the annual cost reports.

Bad debt expense represents healthcare services Miles Memorial Hospital has provided without compensation. As a tax-exempt hospital, MMH provides necessary patient care regardless of the patient's ability to pay for the services. A portion of MMH bad debt expense is attributable to patients eligible for financial assistance that, for a variety of reasons, do not complete the financial assistance application process. MMH cannot determine the amount of bad debt expense that could be reasonably attributable to patients who likely would qualify for financial assistance under the MMH free care policy. In addition, bad debt expense also includes amounts for services provided to individuals experiencing difficult personal or economic circumstances related to a portion of our community based patient population. Their medical bills often place these individuals in untenable positions where they are not able to handle their personal debt and their new medical debt. However, because of their income level, they do not qualify for free care. By providing necessary healthcare services to those individuals either who fail to apply for financial assistance or who are experiencing difficult personal or economic circumstances, MMH believes that bad debt expense should be included as a community benefit.

Part III, Line 8 - Medicare Explanation

Medicare allowable costs were calculated using a cost to charge ratio.

MMH believes that the Medicare shortfall should be included as a community benefit because MMH has a clear mission commitment to serving elderly patients and adults with disabilities through the provision of specific subsidized programs developed to help improve the health status of these patients. If these critical subsidized programs were not improved by MMH, they would become the obligation of the Federal Government.

If the patient cannot meet the guidelines above, the financial counselor or patient accounts staff will request proof of income and reason why they cannot make regular payments. The patient will be offered financial assistance if criteria is met with Free Care guidelines and other assistance that is available. When it is determined that the guarantor cannot realistically meet the extended payment plan terms due to insufficient income, limited or negligible assets or other extenuating circumstances beyond the guarantor's control, the hospital may reduce the total indebtedness through Free Care.

*Under the supervision of the Director of Patient Accounts, the Financial Counselors will follow the Free Care guidelines for approval of Free Care.

*A Free Care write-off may be utilized only after all third party benefit possibilities have been exhausted, and when it is determined that no other hospital assistance programs or funds are applicable or available to the guarantor. Once approved, the hospital will allow full or partial adjustments on balances up to 225% of the Free Care guidelines set by the State of Maine.

Along with the internal assessments, most member organizations also review and act on many of the recommendations provided by external groups such as the Maine Center for Disease Control and Prevention and the "State Health Plan" created by the Advisory Committee for Health Systems Development.

In addition, MaineHealth and its partners in the OneMaine Health Collaborative, Eastern Maine Health System and MaineGeneral Health, released the OneMaine Health Community Health Needs Assessment Report in 2011. The report is a comprehensive compilation and analysis containing primary and secondary health data sources. The report contains a Health Status Profile for the state as a whole and for each of Maine's sixteen counties. The primary data source was a randomized telephone survey; the sampling methodology was designed to permit comparisons at the county level. Secondary data sources include numerous state and federal sources. This report provides baseline data on hundreds of health indicators that are relevant to hospitals and communities to inform planning and evaluation activities. Plans call for the Community Health Needs Assessment to be replicated every three years. MaineHealth holds community forums in

Patient Education of Eligibility for Assistance

Patients and other persons who are billed for patient care are informed about eligibility criteria for free care, governmental assistance (i.e. Medicaid) and other assistance programs. Such notification is accomplished in the following ways: all self-pay patients are provided a packet that describes available programs, eligibility and the application process; notifications are posted at numerous locations throughout the hospital in patient care areas, as well as the hospital entrance; inpatients without insurance receive financial counseling at which time financial assistance opportunities are discussed; Hospital staff will assist patients in the application process; patient bills and statements provide a telephone number to call for information about financial assistance programs and help in qualifying for them.

Community Information

Our service area is Lincoln County, Maine, which was incorporated June 19, 1760. Lincoln County contains 457 square miles of land, 451 miles of coastline, and six rivers. Marine interests such as commercial fishing, lobstering, clamming, eeling, boat building along with forestry and agriculture constituted the majority of our early economic base. In more recent times, service industries and tourism also serve as our economic base.

According to 2006-2008 American Community Survey of the U.S. Census Bureau, Lincoln County has a total population of 34,730. This population almost doubles in the summer, as we are a very busy tourist destination on the coast. Ten percent of our residents are below the poverty level. Maine has the third highest percentage of residents over 65, 15.6% versus 12.9% nationally. Within Maine, Lincoln County has the highest percentage of residents over 65 - 20.0%. Lincoln County also has a higher median age (45.6 vs. 36.7) than in the United States. As compared to the United States (65.2%), a smaller percent of residents at least 16 years of age are in the labor force (64.2%). Lincoln County is an economically poor county. The

U.S. Department of Labor reports that the weekly wage in Lincoln County during the third quarter of 2009 was only \$542 as compared to the average weekly wage of \$840 in the United States. In fact, Lincoln County has the second lowest weekly wage of all counties in Maine. These population and economic data point out the dependence of Miles Memorial Hospital on Medicare and Medicaid and explain the large amount of uncompensated care provided.

St. Andrews Hospital is a Critical Access Hospital located in Boothbay Harbor. It is the only other hospital in Lincoln County. The provision of care to Lincoln County residents is coordinated between Miles and St. Andrews and they share common governance, management and administrative services in an effort to control costs.

Portions of Lincoln County have been designated as medically underserved.

compensation for its CEO. The findings of the Compensation Committee are made transparent to, and voted on by, the full Governing Board. This "total executive compensation" is filed publicly by the organization, and includes "total cash compensation" and "total value of all benefits and perquisites associated with the position (such as housing allowances, social club memberships, signing bonuses, etc.)". The Board takes necessary action to prevent the CEO from voting or directly participating in the final Committee determination of (her/his) own compensation. The organization's executive compensation procedure relies upon appropriate data for comparability (e.g. compensation levels paid by both taxable and tax-exempt similarly situated organizations and independent compensation surveys by nationally recognized independent firms). Finally, the organization refrains from allowing executive compensation to ever be based solely on LCH's revenues or other similar profit-sharing strategies.
