

BUILDING PERMIT SUPPLEMENT

Important information about lead-safe practices and resources

Get Smart About Lead Paint

- Assume there is lead paint in all buildings built before 1950
- Maintain painted surfaces properly. Inspect for peeling, flaking, or chalking paint every 6 months
- If you plan to renovate, repair or paint a rental property, hire an RRP-certified contractor or get certified yourself

Improper work practices can cause lead poisoning

- Lead is toxic to children and adults
- Keep others, especially children and pregnant women out of the work area
- Keep all dust contained within the work space, create barriers between the work area and living spaces
- Clean up dust in lead-safe ways
