

JETCC Onsite Course Offerings

\$80 per person for full-day class

\$50 per person for half-day class

\$90 per person for combo half-day classes

Fee includes: training material and refreshments.

A cancellation fee of \$25 will be charged if you do not provide notice of cancellation 48 hours prior to the day of the program.

Returned check subject to \$15 fee.

To avoid a \$15 late fee, please register before the deadline indicated.

Lunch is on your own: Due to state funding cutbacks, lunch is not provided.

Certification:

A JETCC certificate of participation will be issued to those who attend and complete a workshop. Six and one-half Training Contact Hours will be awarded for full-day sessions and three and one-half for half-day sessions. This will apply to re-certification for LPIs and CEOs as well as towards the Maine DHHS and DEP Voluntary Certification Program for Septic System Installers & Contractors.

Instructors:

All training sessions are led by staff from the Division of Environmental Health, Subsurface Wastewater Unit with assistance from other state agency and industry personnel.

The program's sponsors prohibit discrimination in these programs on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, and marital or familial status.

Additional Program Sponsors:

Basic On-Site Wastewater System Installation

Registration: 8:00 a.m. - 8:30 a.m.; Course Hours: 8:30 a.m.- 12:00 p.m.

This half-day session led by Division of Environmental Health, Subsurface Wastewater Unit staff will provide installers of subsurface wastewater disposal systems with a basic understanding of the design, permitting, construction, and inspection processes contained in the Maine Subsurface Wastewater Disposal Rules (CMR 241). Various types of recognized systems will be discussed, with significant time devoted to identification and explanation of rule sections that relate directly to the construction of subsurface systems. A detailed description of the inspection process will be featured, stressing system construction aspects that are critical to the successful long-term functioning of subsurface systems. Peter Hanrahan of E.J. Prescott will also cover the use of erosion control devices and the Dig Safe process.

Attendees who submit HHE-200 forms for two successfully completed system installations will be granted certification after DHHS staff's review. Details of the voluntary Certification Program for System Installers will be covered during this session.

- J1214 - Tuesday, **March 13, 2012**
Portland Water District, **Portland**
- J1217 - Tuesday, **March 27, 2012**
Brewer Auditorium, **Brewer**

Subsurface Wastewater System Inspection

Registration: 12:30 p.m. - 1:00 p.m.; Course Hours: 1:00 p.m. - 4:30 p.m.

Attendees completing this half-day session will earn voluntary certification for conducting inspections of operating subsurface wastewater disposal systems. Maine's Department of Health and Human Services (DHHS) and Department of Environmental Protections (DEP) have developed a voluntary inspection program that is promoted for use at the time of property transfers. By law, this inspection is now mandatory in the coastal shoreland zone. This process, however, can be used any time a system owner wishes to document an existing subsurface wastewater disposal system. This session, presented by Division of Environmental Health, Subsurface Wastewater Unit staff, will cover the techniques needed to complete the DHHS State Inspection Report Form (HHE-240). Several examples of typical inspection scenarios will be discussed, and advanced techniques and equipment relating to existing system evaluation will be reviewed.

- J1215 - Tuesday, **March 13, 2012**
Portland Water District, **Portland**
- J1218 - Tuesday, **March 27, 2012**
Brewer Auditorium, **Brewer**

New Local Plumbing Inspector

Registration: 8:00 a.m. - 8:30 a.m.; Course Hours: 8:30 a.m. - 4:30 p.m.

Through this day-long session, newly certified Local Plumbing Inspectors and people seeking certification will receive a thorough explanation of the permitting, inspection, and enforcement provisions of the Subsurface Wastewater Disposal Rules (CMR 241) and the Internal Plumbing Rules (CMR 238). Staff from the Division of Environmental Health, Subsurface Wastewater Unit and the Plumbers Examining Board will lead the session. They will focus on the review of HHE-200 and HHE-211 forms for permitting, the system inspection process, the enforcement process, recent rules changes, and relationship of the Local Plumbing Inspector to the client, Site Evaluator, System Installer, and the Department of Health and Human Services. The session will primarily be of interest to Local Plumbing Inspectors, but is open to all, including Site Evaluators and System Installers.

- J1216 - Thursday, **March 22, 2012**
Auburn City Hall, **Auburn**
- J1219 - Tuesday, **April 3, 2012**
Ellsworth City Hall, **Ellsworth**

Advanced Septic System Training: Confined Space Entry, Tales from the Tank and Post Rule Reality

Registration: 8:00 a.m. - 8:30 a.m.; Course Hours: 8:30 a.m.- 4:30 p.m.

This day-long session will be hosted by Division of Environmental Health, Subsurface Wastewater Unit staff. This session will provide information on topics not addressed in detail in the Basic On-Site Wastewater System Installation session. Presentations will include "Tales From The Tank" (notable case studies from the past year); a post-revision discussion of the Subsurface Wastewater Disposal Rules and changes in practice at the Division of Environmental Health; and a basic overview of recommended confined space entry practices led by Safety Works. Installers, designers, and regulators should find this course particularly beneficial.

- J1213 - Tuesday, **February 28, 2012**
Portland Water District, **Portland**
- J1220 - Tuesday, **April 10, 2012**
Brewer Auditorium, **Brewer**
