

Information / Registration

May 22-23, 2013 • 8:00am - 5:30pm

Location:

Kaplan University
265 Western Avenue
South Portland, Maine

Spruce Radon Training

in cooperation with

Maine Department of Health and Human Services

Radiation Control Program

Radon Section

This training is supported in part by Maine DHHS, Radon Section using grant funding from the US EPA for the purpose of educating Maine residents on radon issues; and is open to Maine residents only.

Residential Radon Measurement

Two-Day Course Approved for:

- Initial Certification for Residential Measurement Service Provider
- Certification Exam Preparation & Prerequisite
- 16 NRPP & NRSB Category I CE Credits
- 16 InterNachi CE Credits
- Accepted by all New England States

Instructor: Trudy Smith, Senior Training Specialist
Spruce Environmental Technologies

This two-day course is partial minimum training required for Maine radon air tester registration, and prepares you for and is a prerequisite to the National Radon Proficiency Program (NRPP) or National Radon Safety Board (NRSB) exam. You must also pass one or the other of these exams to become a registered radon air tester in Maine. Either the NRPP or NRSB exam will be made available to you after the course concludes; or you can arrange with either of those organizations to take the exam at another time. If you pass the exam, you may then apply for Maine radon air tester registration; and are eligible for certification with NRPP or NRSB. Please note: Maine requires passing the NRPP or the NRSB exam, but does not require you to become NRPP or NRSB certified.

Course Time: 8:00am - 5:30pm both days

Certification Exam Date & Time: May 23, 6:00-8:30pm

Course Fee: \$99.00 (*Without state support, fee would be \$299.00.*)

Certification Exam Fee: \$85.00
