

I. Standard Cow's Milk-Based and Soy Formulas (Contract and Non-Contract)

Contract formulas include standard cow's milk and soy-based formulas produced by the manufacturer which holds the current Maine CDC WIC Nutrition Program formula contract. Currently, Mead Johnson provides the contract formula for the Maine CDC WIC Nutrition Program. ***The Maine CDC WIC Nutrition Program does not provide any non-contract standard cow's milk or soy based infant formulas.***

According to WIC Federal Regulations (7 CFR, Part 246), monthly formula issuance amounts are based on infant age, feeding choice (partially breastfed or fully formula fed) and form of formula (powder, concentrate, ready to feed). Partially breastfed infants needing supplemental formula may receive a maximum of one can of powdered formula in the first 30 days of life, and will have monthly issuance tailored according to individual need throughout the rest of the first year. WIC maximum formula issuance amounts for all infant age groups, feeding choices and forms of formula are included for each item listed.

Contract Brand Standard Formulas								
Product Name	Description	Packaging	Composition	Indications	Maximum Monthly WIC Issuance Amounts			
Enfamil Newborn (Mead Johnson Nutrition™)	Milk based iron-fortified formula containing prebiotics designed for newborns to 3 months 80:20 whey:casein Gluten Free	<u>Ready to Feed liquid:</u> 2 oz nursettes, 48 bottles/case NDC#: 00087-165741 <u>Powder:</u> 12.5 oz can, 6 cans/case <u>Yields 90 fl oz/can</u> NDC#: 00087-510050	CHO: lactose, galactooligosaccharides, polydextrose PRO: whey protein concentrate, nonfat milk FAT: palm olein, soy, coconut, high oleic sunflower M. alpine and C. Cohnii oils Vitamins/minerals 400 IUs in 27 fl oz 20 cal/fl oz OsmolalityL 300 mOsm/kg H₂O	Full term newborns through 3 months of age	Non-breastfed infants	0-3 months	4-5 months	6-11 months
					Powder: 12.5 oz.	9 cans	10 cans	7 cans
					Concentrate	31 cans	34 cans	24 cans
