

Maine Center for Disease Control and Prevention

Monthly STD/HIV Data Update

Cases diagnosed from January 1st to January 31st, 2014

This monthly update provides summary year-to-date (YTD) data about HIV and STDs in Maine. For each disease, the YTD total is shown and compared with the median* YTD values for the last five years. Please note that data presented here may change due to reporting delays or pending epidemiologic investigations.
