Maine Center for Disease Control and Prevention

Monthly STD/HIV Data Update

Cases diagnosed from Jan 1st to June 30th 2016

This monthly update provides summary year-to-date (YTD) data about HIV and STDs in Maine. For each disease, the YTD total is shown and compared with the median* YTD values for the last five years. Please note that data presented here <u>may</u> change due to reporting delays or pending epidemiologic investigations.

For more information call: 287-7204
