

In the battle against whooping cough,
she needs more than cute.

She needs the safe, proven protection of vaccines. Giving her the recommended immunizations by age two is the best way to protect her from 14 serious childhood diseases, like whooping cough and measles. For more reasons to vaccinate, talk to your child's doctor or go to <http://www.cdc.gov/vaccines> or call 1-800-CDC-INFO.

Immunization. Power to Protect.
