

## Adolescent HPV Immunization Rate Assessment Report 2017 Fourth Quarter – October 1, 2017

The Maine Immunization Program conducts an immunization assessment on the 1<sup>st</sup> of each quarter (January, April, July, October) which includes all adolescents in the State of Maine immunization registry, ImmPact, associated to a practice which enters client specific data. These assessments follow the standard Centers for Disease Control and Prevention adolescent HPV assessment criteria of 13-18 years of age immunized fully for HPV (Human Papilloma Virus), 2 or 3 doses depending on age and interval requirements.

| County       | Both Females & Males | Females | Males |
|--------------|----------------------|---------|-------|
