Maine Newborn Bloodspot Screening Program

In accordance with Chapter 283, Section 3.6, of the Rules and Regulations Relating to the Testing of Newborn Infants for Detection of Causes of Mental Retardation and Selected Genetic Conditions, "if an infant is transferred to a second facility during the first 48 hours of life, the blood specimen shall be taken at the second facility. The first facility shall clearly indicate in the papers accompanying the infant that the child needs to be screened and notify the Maine Newborn Screening Program of the transfer within 5 working days."
