

**I hate you**

You can't be their friend

**I hate you**

all the time...

**I hate you**

you're their parent.

**I hate you**

So don't avoid the confrontation

**I hate you**

or wait for something to happen

**I hate you**

before you talk to your kids

**I hate you**

about drugs.

**I hate you**

Take the first step

**I hate you**

and remember

**I hate you**

down the road

**I hate you**

they'll thank you

**I hate you**

and

**I hate you**

they'll love you for it.

**I love you**
